MEMPHIS, Tenn., April 5.—Mem-
phis today expected the worst. With
the levees about the city fast weak-
ening and showing signs of break-
ing under the great crush of water
from the Mississippi last night, and
a further raise of nearly a foot this
morning, it seemed certain that the
dikes must let go at any moment.

The river registered 44.2 on the
gauge early today and it was predict-
ed the great St. Francis levee as
well as those protecting the city,
would certainly break at 44 feet.
Great gangs of workmen were today
rushed to every point along the levee
where crevices appeared and a wild
fight to save that portion of the city
subject to a flood and the surround-
ing country was started.

The situation was aggravated here
when the officials discovered that
the city's water supply had been con-
taminated by seepage in some parts
of town. Fearing that an epidemic
would follow the flood the health
authorities issued a bulletin order-
ing that all water be boiled before
using.

Seven thousand persons are home-
less about Memphis; 10,000 others
are fleeing from the St. Francis
basin. A score of smaller towns re-
port their sections to be flooded and
everywhere every effort is being
made to stop the rush of the waters
over the fertile valleys. Men are
working night and day strengthening
the levees with sandbags but the
steady rise of the river still threat-
ens the country.

On the Arkansas side of the river
numerous small breaks in the levee
are reported and a great section
there is flooded.

Hickman Suffers

HICKMAN, Ky., April 5.—The
city officials of Hickman have over
2,000 persons to feed and house, but
no funds and very little food. The
situation today was the most criti-
cal since the first water entered the
town four days ago. Refugees are
flocking here from Missouri and Ken-
tucky points. Local merchants are
cleared out of all stock they had on
hand and though the churches and
public buildings have been thrown
open to the refugees, there are still
hundreds unsheltered in the hills
back of the town. The last block of
the business district was inundated
late yesterday and part of the town
is under ten feet of water.

Cairo Scared but Safe

CAIRO, Ill., April 5.—Cairo was
thrown into a fever of excitement
and apprehension today by a rapid
rise of water within the city at Tenth
street. It was believed that the levee
had broken and hurried preparations
were made to combat a serious flood.
Men rushed to the scene, fully expect-
ing to find a break, but discovered
that the water was coming from an
overflow of the discharge race of a
drainage pump, working near the
levee.

At noon the weather bureau offi-
cials issued a statement saying that
the situation in Cairo proper might
be considered safe.

Ten Foot Water

Hope that the worst of the flood
has now passed was revived today
when it was found that the subway
under the Illinois Central bridge ap-
proach, as well as the cross levees
were holding safe and strong against
the rush of waters from the flooded
drainage district, north of the city.
The drainage district presented a
desolate sight today. Lumber, parts
of houses, barns and other debris
floated about the district in water
ten feet deep.

Northwest Flooded

GREAT FALLS, Mont., April 5.—
Thousands of acres of fertile farm
lands and miles of Great Northern
railway tracks in northern Montan-
a were covered with water, two feet in
depth in places today.

The Missouri and Milk rivers have
overflowed their banks and are sub-
merging thousands of acres which
hitherto have been considered high
and dry above the reach of the most
famous flood. From Glasgow east to
point near Williston, N. D., the
water extends on each side to the
higher ranches and the same condi-

No Age Limit For Working Child He Says

BOSTON, April 5.—Toddling
babies, hardly able to walk are
forced to work to aid their par-
ents in earning bread, according
to Rabbi Levi, of Temple Is-
rael. There is no age limit for
child labor in Maine or New
York, he declared, and cited sta-
tistics to prove his contention.
The rabbi told the National
Clothing association and the
owners of department stores
here today that unless they
take action to see that anti-
child labor laws are enforced,
the effect on the future of the
nation will be most disastrous.
"In one scattered canvass in
New York," he said, "which
took in only 558 children, was
found four working who were
only three years old; twenty-
one who were five; forty-one
who were seven; forty-five who
were nine, and seventy-six who
were ten."

HARD COAL STRIKE BECOMES SERIOUS

Union Refuses to Let Oper-
ators Make Repairs in the
Mines; Claim It Is a
Move to Fight

PESSIMISTIC OVER PEACE

Employers Feel that Peace
Meeting Will Do No
Good; Will Not Rec-
ognize the Union

PHILADELPHIA, Pa., April 5.—
The anthracite coal tie-up assumed
a decidedly serious aspect today be-
cause of the action of the union lead-
ers in the various districts in op-
posing permitting the mine owners to
undertake repair work.

The operators insist that this work
is absolutely necessary and can only
be performed while the mines are
idle. The miners say this is not so,
and that the operators, fearing that
next week's conference will prove un-
availing because the operators and
the union committee will split on the
rock of union recognition, are trying
under the guise of repairs to put
their plants on war footing.

Troops Ready
While there has been no open
break, an undercurrent of bitter
feeling is reported from various districts.
It is feared if the operators persist
in pushing the work clashes will re-
sult. Because of this belief the of-
ficers of the state constabulary have
been directed to keep their men ready
for field work.

Privately many of the operators
are pessimistic over the outcome of
next week's conferences. They are
satisfied that the union scale com-
mittee will bring up the question of
union recognition in advance of the
question of an increased wage.

Opposed to Union
The operators, while differing on
the advisability of increasing wages,
are said to be a unit in opposing any
union recognition. Under no cir-
cumstances, they say, will they yield this
point. Advice from every point of
the anthracite field quote the union
leaders as saying that no suggested
compromise that does not include
complete recognition of the United
Mine Workers will be acceptable.

CUMMINS FIGHTS FOR OWN STATE

Iowa Senator Has Neck to
Neck Race with Presi-
dent Taft for Dele-
gates

WATERLOO, Iowa, April 5.—
Two Cummins delegates to the na-
tional convention were elected at the
third district convention today on
the sixty-second ballot, when the
deadlock starting yesterday was
broken by the Franklin county dele-
gates who, twelve in number, voted
for the Cummins men. C. B. Santee
and O. B. Morton were elected by a
vote of 84 to 60 for the Taft men.

DES MOINES, Iowa, April 5.—
The assurances from Clinton today
that that county will send a Cum-
mins delegation to the Cedar Rapids
republican state convention indicates
that Cummins will probably control
that body and get four delegates at
large to the national convention. Ten
counties have yet to hold their con-
vention and it is a neck and neck
race between the Cummins and Taft
men for control.

HEADS WISCONSIN ACADEMY

MADISON, Wis., April 5.—Profes-
sor Dana C. Munro of Madison was
today elected president of the Wis-
consin Academy of Sciences, arts and
letters and Professor Arthur Beatty,
also of Madison, secretary and treas-
urer.

PRIMARY FIGHT HOT IN ILLINOIS

Wilson Making Whirlwind
Campaign to Capture
Delegates in Illinois
Primaries

ROOSEVELT ON THE GROUND

T. R. Will Make Two Days'
Campaign in State; La
Follette Men Fight-
ing Hard

CHICAGO, April 5.—With Gover-
nor Woodrow Wilson speeding
through Illinois on a two days' tour
of the state and with spellbinders of
five presidential candidates holding
forth in every district, the presiden-
tial preference primary campaign to-
day reached its climax. The fight is
the most spirited political contest
ever presented in this country.

Accompanied by members of the
Woodrow Wilson club of Illinois the
New Jersey governor's dash is ex-
pected by his managers to duplicate
the result attained in Wisconsin. Sen-
ator Gore of Oklahoma paved the
way for Wilson.

Taft Men There
Taft is represented on the stump
today by Congressman E. W. Martin
of South Dakota and former Gov-
ernor Mahum J. Bacheelder of New
Hampshire, past grand master of the
national grange, who devotes his at-
tention principally to farmers. The
Taft forces will be joined tomorrow
by Senator E. Townsend of Michigan
and Secretary of Agriculture James
Wilson.

The work of the local spellbind-
ers in the Roosevelt cause will be
brought to a grand finale tomorrow
when Roosevelt enters the state for
a two days' campaign.

La Follette Fighting
La Follette boomers, while unable
to secure the presence of their lead-
er, are making a hard fight with lo-
cal talent.

United States Senator William J.
Stone of Missouri opened the final
spurt in the campaign of Champ
Clark with an address here last
night. He will make several other
speeches. The Harrison-Hearst al-
liance is almost solidly behind Clark.
Governor Wilson's special train
pulled out of the union station at
9:30 today. His speech was made
at Joliet, followed by stops at
Dwight, Pontiac and Bloomington. A
big meeting was scheduled for this
afternoon at Springfield and the
principal address of the day will be
made at Peoria tonight.

No New Schemes
He was accompanied on the trip
by William C. Niblack, president of
the Illinois Wilson club, and mem-
bers of the Wilson committee. "I
have no new arguments to present
to the democratic voters of Illinois,"
said Governor Wilson. "I shall tell
them I have said before I have had
no opportunity to acquaint myself with
local conditions in this state. I have
been trying to catch up with the
work at home."

FORCED TO KISS FLAG

FREE SPEECH ADVOCATES MADE
TO KNEEL AND SALUTE U.
S. EMBLEM IN SAN
DIEGO, CAL.

SAN DIEGO, Cal., April 5.—Public
feeling remains high here today over
the attempt of the Industrial Work-
ers of the World to conduct a "free
speech" campaign. The action of the
"vigilantes" in forcing about 100
members of the I. W. of W. at San
Rafael to kneel on the ground and
kiss an American flag aroused con-
siderable excitement here. The "vigil-
antes" insist that when the indus-
trialists were taken into custody and
examined they admitted they are an-
archists.

Patrols of armed men still watch
the county line determined to pre-
vent any other members of the I. W.
of W. from entering San Diego. The
jails here are crowded.

EXPLORER'S HEIRS WANT CASH

WASHINGTON, April 5.—Fifty-
three years after Capt. E. H. Brooks,
a whaler, discovered what are known
now as the Midway Islands in the Pa-
cific, between Hawaii and Japan, his
daughter, Miss Alice Brooks of New
York, is trying to get Uncle Sam to
recompense the skipper's heirs for
his services.

AVALANCHE KILLS TEN

LAIBACH, Austria, April 5.—Ad-
vices received here from Hochstuhl
says a party of eighteen tourists,
while trying to ascend the mountains
near here, were overwhelmed by an
avalanche and ten of them perished.

HANDFUL FUNERAL

The funeral of W. H. Handorf will
be held tomorrow morning at 9
o'clock from the La Crescent Catho-
lic church. Rev. Dollie will officiate
at the services. Burial will be made
in the La Crosse Catholic cemetery.

CAVE-IN KILLS TWO

BOSTON, April 5.—Two workmen
were killed and twelve others injured
when a ton of earth caved in at
the Newellene building today.

Broke But Happy Wilson Lauds Wisconsin

WASHINGTON, April 5.—
"This is the fourth time the
Wilson movement has gone
bankrupt," said Governor Wil-
son smilingly, when he discover-
ed that he had no money with
which to pay for campaign el-
gars. "That is an instance of
the saying that 'Many a truth is
spoken in jest,'" continued the
governor. "But I am encourag-
ed by the way friends without
hope of reward have come to my
assistance. The results in
Wisconsin are very pleasing. I
have just received a telegram
from Senator Gore in which he
says my friends unquestionably
have elected at least twenty-two
of the twenty-six delegates."

"I shall leave this afternoon
for Chicago. After two days'
campaigning in Illinois, I shall
return to New Jersey."

"I shall not speak in Ohio
in this campaign. I am willing
to trust the people there to
determine whether they prefer
Governor Harmon or me."

CONANT BUTTRICK LOST IN MEXICO

Mrs. Conklin Receives Let-
ter Telling of Disappear-
ance of Another Amer-
ican in Chihuahua

That Harry Conklin of La Crosse
is not the only missing American last
heard of in the state of Chihuahua,
Mexico, is the information contained
in a letter received by Mrs. Mary L.
Conklin, mother of the missing man
today.

Mrs. Conklin today received a let-
ter from Mrs. C. H. Buttrick, 103
Wavelet Place, New York city, telling
of the sudden disappearance of her
son Conant Buttrick, during Janu-
ary.

According to the letter, Mr. But-
trick, who was also engaged in the
mining business, was located at Apar-
pado, Chihuahua, Mexico. Since the
early part of January he has not
been heard from and nothing can be
learned as to his fate.

Although the American consul at
Chihuahua has been instructed to in-
vestigate the reported capture of Harry
Conklin by Mexican revolutionists,
no word has as yet been received that
would indicate the fate of the miss-
ing American.

LODGE QUESTION THOUGHT WARNING

Believed that His Resolu-
tion on Magdalena Bay
Matter is Planned to
Warn Japs

WASHINGTON, April 5.—That
Senator Lodge's resolution demand-
ing light on reported attempts by
Japan to establish a foothold on the
Pacific coast of Mexico, was "an ad-
ministration measure" adopted spe-
cifically to give Taft an opportunity
to issue a diplomatic warning that
Japan must keep hands off in Cen-
tral and South America, became
known here this afternoon.

It was said that Taft's reply will
not be read to the senate except in
executive session, which indicates
the importance with which that body
regards the naval base scare.

In the message it was said the ad-
ministration plans to say as plainly
as diplomatic usage and international
courtesy will permit, that the United
States will not permit any foreign
nation to secure strategic bases in
this hemisphere.

Senator Lodge had a long confer-
ence today with President Taft. That
the resolution has already served its
purpose and will halt, if it has not
done so already, the negotiations
of Japan to acquire land at Magda-
lena bay, it declared today on high
authority.

DAVIDS FUNERAL TODAY

The funeral of Mrs. Edgar Davids,
who died Wednesday afternoon, was
held from the residence, 1313
Charles street, at 2 o'clock this
afternoon and from the Caledonia
Street M. E. church at 2:30 with a
large number of friends and relatives
attending the services to pay their
last tribute to her memory. Rev.
Ingham officiated at the services.
Interment was made in Oak
Grove cemetery.

LAKE CAPTAIN DEAD

DETROIT, Mich., April 5.—Cap-
tain Joseph C. Miller of Marine City,
veteran lake captain and well
known in marine circles about the
great lakes, was run over and kill-
ed by a street car today.

T. R. IN WEST VIRGINIA

MARTINSBURG, W. Va., April 5.—
On the theme "Let the people

FOSS HOPES TO BE DARK HORSE

Refused to Be Candidate
in the Primaries, but Has
Convention Bee in
His Bonnet

WOULD ACCEPT SECOND PLACE

If Foss Can't Head the
Democratic Ticket, He
Is Willing to Try the
Vice-Presidency

BOSTON, Mass., April 5.—Gover-
nor Foss, although he has with-
drawn his name as a candidate at the
Massachusetts presidential prefer-
ential primary confidently expects to
be the democratic standard bearer in
the coming presidential campaign,
was admitted by his secretary and
confidential adviser, Dudley Holman,
today. The governor does not think
any of the candidates now actively in
the field can receive the support of
the two-thirds of the delegates re-
quired to nominate. He thinks, of
the "dark horses" in the party, he is
the one who can command most of
the support.

"The governor knows," said Hol-
man, "that his withdrawal from the
race here will not affect his ultimate
stand. He knows that after the con-
vention has failed to nominate any
of the avowed candidates that his
chances will be better than if he was
put into the race at the outset as a
favorite son."

Other leading Massachusetts demo-
crats say Foss withdrew so that if
the nomination goes to a western
man he can get the vice presidency
nomination.

Additional light today was shed on
negotiations between the Foss and
Clark camps during the last few
months by Holman. He said that in
November advances were made to
Foss by a Clark representative to
have the former take the field for
vice president with Clark in first
place. Foss declined, stating then
that under no consideration would
he be a candidate for second place.

MAN'S WHIPPING REMITTED

WILMINGTON, Del., April 5.—Be-
cause it was believed certain that if
the additional lashes were inflicted
the demand that the whipping post
be abolished would be so strong that
it would have to be stopped, the
board of pardons today remitted the
thirty lashes which were to be given
to Charles E. Wright. A month ago
Wright was lashed almost into un-
consciousness, being given the first
forty of a seventy lash sentence.

ELECTION REFORMER INDICTED

XENIA, Ohio, April 5.—County
Auditor Walter L. Dean, leader of
the reform forces in this county, and
who last fall, urged an investigation
by the grand jury of reported elec-
tion frauds, was indicted today charged
with bribing an election judge at
the primary last September.

FLEES GUN; CAR KILLS

CHICAGO MAN CLAD IN UNDER-
WEAR, ESCAPES BULLET
TO DIE UNDER AN AU-
TOMOBILE

CHICAGO, April 5.—Fleeing blind-
ly into the street to escape pursuit
by an infuriated man with a revolver,
Charles Selvers, 32, in his terror,
dashed in front of a speeding automo-
bile on Jackson boulevard early today
and was so badly hurt that he died
an hour later in the hospital. Selvers
was dressed only in his underwear
and a pair of socks when he ran out
of a building with J. Sinmons, revolver
in hand, only a step behind him.

Sinmons declared that he found
Selvers in the apartments of his
wife, who is known under the name
of Mrs. Carrie Burke and from whom
Sinmons has separated. M. Van Geld-
en, driver of the automobile, and Mr.
Sinmons were held to await action by
the coroner's jury.

BURANDT FUNERAL TOMORROW

The funeral of Wm. D. Burandt,
who died Tuesday evening, will be
held from the residence, 1025 South
Third street, at 2 o'clock tomorrow
afternoon and from the German
Lutheran church at 2:30 o'clock with
Julius Gamm officiating at the ser-
vices. Interment will be made in Oak
Grove cemetery.

KNOX AT SANTIAGO

SANTIAGO, Cuba, April 5.—Sec-
retary of State Knox arrived here on
his tour of Central American coun-
tries today and was given a warm
welcome by the city officials. He pro-
ceeded to San Juan Hill this after-
noon and was shown the battlefield
by a local committee.

RODGERS IS BURIED TODAY

PASADENA, Cal., April 5.—The
body of Calbraith Rodgers, the avia-
tor who was killed Wednesday
while trying some sensational man-
euvers over the sea at Long Beach,
was buried here today.

She Loves Old Hubby Although He Is Broke

LITCHFIELD, Conn., April 5.—
Denying that money had come
between her and her elderly
husband, Edward B. Alsop, Mrs.
Effie Pope Till Alsop today re-
clared:
"I don't care whether he has
the million or five cents, I love
him dearly."
Mrs. Alsop, attired in a
charming blue negligee, had left
her invalid bed to deny the rum-
or that she and her husband
had parted because he deeded a
million in property to his sons
before the wedding.
"I knew when we were mar-
ried that the property had been
transferred," she said. "I lived
as well for nineteen years as I'm
living now. Doesn't that prove I
didn't marry for money?"

SENATOR LIKES NEBRASKA

Compliments Cornhuskers
for Progressiveness, and
Declares He Will

PACIFIC JUNCTION, Iowa, April
5.—Senator La Follette began his
Nebraska trip this morning at Platt-
smouth, speaking to the workmen at
the Plattsmouth Burlington shops.
Not only men from the shops but
hundreds of Plattsmouth citizens
were at the meeting.

Senator La Follette was welcomed
to Plattsmouth by a big crowd at the
depot who greeted him with cheers.
"I am just beginning to fight," the
senator said. "I expect to carry Ne-
braska and also California, and be-
lieve I will go to Chicago second in
number of delegates."

Mrs. La Follette accompanied her
husband and is even more optimistic
over his political prospects. She says
she is going with him to look after
him and see that he does not overdo
things again.

In his Plattsmouth speech Senator
La Follette reiterated his statements
as to the progressive principles for
which he has fought. The recall of
judges and direct legislation were
the principal measures touched on.
He was cheered when he declared his
belief in the rule of the people.

From Plattsmouth, Senator La Fol-
lette took the Missouri Pacific train
south, speaking along the way at
Maynard, Murray, Union, Wyoming,
Nebraska City, Auburn, Stella, Ver-
don and Falls City. In every town
there were crowds of people and
great enthusiasm shown. Most of the
stopping places were small towns, but
farmers drove for miles to hear him.

"Judging from appearance, Nebras-
ka is progressive," said the senator
greatly pleased with his reception.

CLARK GETS BUT FOUR DELEGATES

Twenty-one Is Practically
Correct Count for Wil-
son; One Is Unin-
structed

MILWAUKEE, Wis., April 5.—
With supporters of Champ Clark
making claims of delegates elected in
the sixth and eighth congressional
districts as result of Wisconsin's
state-wide preference primary voting,
the result, according to previous un-
official figures today gives Wilson 21
and Clark 4, with one delegate un-
pledged.

Official figures will be returned to
Secretary of State Frear at Madison.
These, according to Wilson men to-
day will show Wilson has carried the
state by a substantial majority over
Clark, electing all the delegates with
the exception of one in the fifth, two
in the fourth (one uninstructed for
either Clark or Wilson) and two in
the second district. The remaining
four delegates are conceded for Mr.
Clark.

Clark supporters today conceded
the two delegates from the ninth dis-
trict to Wilson.

CATLIN MAY BE OUSTED

WASHINGTON, April 5.—Wheth-
er Representative Theron E. Catlin
(Rep., Mo.) is to be ousted and Pat-
rick F. Gill, a democrat of St. Louis,
seated in his place, will probably be
decided within the next few days.
Gill claims Catlin was elected by the
lavish use of money and other cor-
rupt practices.

• Karis residence, \$3,000.
• L. Breglow, barn, \$1,000.
• M. Neumann, barn, \$300.
• W. Yonke, barn, \$200
• F. Wartman, warehouse, \$1-
• 800.
• M. Neumann, department
• store, \$100.

A fire which destroyed a depart-
ment store, a warehouse, a residence
and four barns and threatened to
wipe out the entire village of or-
walk resulted in \$10,000 damage last
night.

The cause of the fire which origi-
nated in a barn of the Karis estate
is not known but it is believed to
have started from a spark dropped
from a pipe.

The fire was discovered at 11:30
o'clock last night. The fire depart-
ment arrived a few moments later
but were unable to check the fire. A
call for aid was sent to the La Crosse
fire department and the Elroy fire
department but before either could
make preparations to send aid the
fire was under control.

Starts in Barn
For hours the firemen assisted by
volunteers poured water upon the
blazing buildings and at 2:30 a. m.
they had succeeded in confining it
to one section of the town.

The fire was not discovered until
a blaze was seen to rise from the
roof of the Karis barn. The other
barns being close at hand were soon
ablaze and the warehouse soon fol-
lowed. The Karis residence was al-
most entirely destroyed. But slight
damage was done to the Neumann de-
partment store.

William Karis, while attempting to
save furniture and other valuable ar-
ticles from his home was partially
suffocated and would have perished
had he not been dragged from the
burning building. He did not regain
consciousness for several hours after
rescued.

John Neumann in an attempt to
save himself from falling into the
midst of a burning barn, jumped
from the roof as it collapsed, falling
upon a nearby fence. He was pick-
ed up badly injured. When examined
by physicians today it was announced
that he is probably internally in-
jured.

Although the fire was under con-
trol at 2:30 a. m., the fire fighting
was continued until this morning
when most of the buildings were de-
stroyed. A careful watch was kept
over the smoking piles of debris this
morning.

BOTTLE BABES MANY

BERLIN, April 5.—An examination of young school applicants just made by Berlin physicians, has shown that about 67 per cent of the

children have been so-called "bottle babies." It also was demonstrated that of the bottle fed children, 65 per cent were undeveloped and in poor health against 30 per cent of the children nourished by their mothers.

Mrs. Claude A. Swanson, wife of the Senator from Virginia. Mrs. Claude A. CZAREVITCH IS LOST

BUT HEIR TO RUSSIA IS FOUND HIDING IN CELL AFTER A FRANTIC SEARCH

ST. PETERSBURG, April 5.—The disappearance for several hours of the little Grand Duke Alexis, son of the Czar, and heir to the throne, caused tremendous excitement in the palace. A score of Russia's best secret service agents, led by the Czar himself, scoured the palace and grounds, 1,000 roubles being offered the servant who first found the right clue.

The boy was discovered late in the day, in an old cell in the castle, calmly eating candy. It had been feared that he had been kidnapped by nihilists. The Czar refused to scold him, saying he did not want his son's will contrived lest he grow up a weak man, such as he himself was accused of being. Asked what he was doing there, the tiny Grand Duke replied:

"I wanted to get out of my French lesson; and I did. That's all."
"Your mother was very frightened," said the Czar.
"Oh, she's too nervous," exclaimed the future emperor.

CHILD BILL PASSES

WASHINGTON, April 5.—Establishment of a children's bureau in the department of commerce and labor is now up to President Taft. The Borah bill, as amended by the house, was agreed to by the senate this afternoon, and the measure sent to the White House for signature. The bill grants federal supervision of child welfare.

ICE CREAM AT PANAMA

SIX HUNDRED GALLONS A DAY ARE CONSUMED BY WORKERS ON THE ISTHMUS, SAYS REPORT

WASHINGTON, April 5.—Ice cream as a tropical luxury is an American innovation on the Isthmus of Panama, according to a report by Col. Goethals, superintendent of the canal zone.

Six hundred gallons of ice cream are consumed daily among the canal workmen and employees, Colonel Goethals says. And this is not sufficient to meet the demand. Two new ice cream freezers, each six feet high, which will turn out 100 gallons of the frozen delicacy every hour are being installed.

Natives are enthusiastic patrons of the government's ice cream parlors in the commissary stores.

Ammonia cooling systems are used to freeze the cream. It is not frozen stiff, but to a semi-solid consistency and then placed in cold storage vaults, at a temperature of 4 degrees to harden slowly.

Consumption of ice cream on the canal zone is encouraged by the government, because of its food qualities, and refreshing effect upon the canal workers in that tropical climate.

MINING COMPANY BROKE

NEW YORK, April 5.—On the application of Valderman E. Hannan, who alleged that the company was insolvent with liabilities of \$4,062,000, Federal Judge Holt today appointed Frank S. Samit and A. V. Widdleton receivers for the Edwin Gold Mines company, with offices here and mines in Alaska and Nevada. No statement of the company's assets was obtainable.

JEFFRIES WON'T COME BACK.

NEW YORK, April 5.—No attempt to "come back" will be made by J. J. Jeffries. This was announced in a telegram received today from the former champion by Bob Vernon. Jeff denied there is any truth in the rumor that he plans to re-enter the ring.

RAILROAD RATE WAR LOOKED FOR

Canadian Northern and American Interests Said to Be About to Join in Battle

Slashed passenger rates for settlers through the Fort Frances gateway on the part of the Canadian Northern gives intimation of an impending rate war. Certain American roads, having traffic interests to look after in the western states could not see eye to eye with the Canadian Northern on a reduction of rates for settlers going into Canada, and on account of this astigmatism the Canadian Northern decided to make a drastic cut and apply it on all business routed by the way of Duluth and St. Frances. During past seasons low one way settlers' fares have been in effect from St. Paul, Minneapolis and Duluth to Canadian destinations. The sale has always been confined to Tuesday of March and April and last year the rate from the above points to the majority of western Canadian territory was \$12.50. The Minnesota lines not including the Duluth, Mesaba & Northern and Duluth, Rainy Lake & Winnipeg, which form the connecting links between St. Frances and Duluth, were allowed to increase their local basis of fares in Minnesota, and as a consequence they want a proportionate increase in settlers' fares, proposing a \$16.00 rate where \$12.50 was applied last year. The Canadian Northern, Duluth, Rainy Lake & Winnipeg, and the Duluth, Mesaba & Northern, saw no necessity for an increase in the rates inasmuch as their basis has never been changed. The other lines opposed the action of the Canadian Northern to such an extent that they practically refused to recognize the Ft. Frances route on the \$12.50 basis, with the result that the Canadian Northern in connection with the Duluth, Rainy Lake & Winnipeg and Duluth, Mesaba & Northern has been forced to make a further reduction in the rate to \$9.30 to protect its interests.

PRIVACY FOR FALLIERES

FRENCH PRESIDENT, SOON TO END TERM, PLANS ON A QUIET LIFE AFTERWARDS

PARIS, April 5.—President Fallieres, whose term of seven years expires in January, has made his plans for retirement completely and totally from public life.

The president owns a block of flats in the boulevard St. Germain and he will occupy one of his own flats, says "Gil Blas." There will be only a parlor, study, a dining room and three bed rooms; he will have neither footman nor telephone; a cook and a housemaid will be all Madame Fallieres will require. Neither a cat nor a dog will be kept and he has caused to be inserted in the leases to other renters who will live near his own flat, a clause whereby they are not to keep such animals either. A parrot will be his only pet.

SWEDEN AGAINST MORMONS

STOCKHOLM, April 5.—The Mormon propaganda in Sweden is about to receive its death blow, both chambers in Parliament having agreed to a bill expelling all Mormon missionaries now in Swedish territory and preventing the landing of any others in the future.

SOCIETY HOSIERY

THE SILK STOCKINGS WITH THE STYLE, WEAR AND FIT

Coles Phillips, the famous New York artist, has said woman must lavish most of her attention on the shoes and stockings that dress her feet.

He is right. No woman of today can afford to wear ill-fitting shoes and shoddy stockings, and no shoes, however expensive, look well over a flimsy, cheap looking hose.

SOCIETY STOCKINGS

Are woven of heavy pure silk, are exceptionally long, with reinforced heel, sole and toe and double knit garter top. They have all the durability of the old time lisle combined with the beauty of the silk. In their weaving the greatest care has been taken, with the result that there is no unseemly bagging at the ankle or instep.

SOCIETY STOCKINGS look their part—they are fine, sleek and thoroughbred.

SOCIETY HOSIERY is not on sale at the shops, but must be purchased from us direct by mail. In this way we eliminate the dealer's profit, greatly reducing the cost to you and also prevent the substitution of an inferior grade of hose.

These stockings positively will not run; they come in all colors, and will be sent by mail to any address, all charges prepaid. If on inspection you are not satisfied—you to be the sole judge—your money in full will be refunded.

Special prices to introduce our Society Silk Hosiery good for ten days only.

CITY

WATER LEAKS AWAY

EXPERIMENTS PROVE THAT VAST AMOUNT OF WATER IS LOST BY LEAKY PLUMBING

Pressure to raise city water on the average only to the second story of buildings outside of the "loop" was declared to be the fact in Chicago as result of an investigation of what becomes of the 190 billion gallons that are pumped annually and why some districts chronically have a water famine above the first floor level. This discovery was made that leaky plumbing is responsible for a loss of 32,260,000,000 gallons last year and underground leaks for 48,390,000,000 gallons. Consequently water meters are recommended, the city to pay for the meters and the household for the water that is metered. The city is going to spend \$3,568,000 for improvements to the water supply plants which will help some, although even that sum will not provide the supply necessary in the stock yards district for fire protection and in many residence districts a pressure that will provide "running water" in the third and fourth story flats that the real estate agents advertise.

BLIND ARE BOY SCOUTS

THREE TROOPS OF SIGHTLESS SCOUTS HAVE BEEN FORMED IN U. S. TRACK BY SLIGHT NOISES

There are now three troops of blind boy scouts in the country. Another troop was organized in the Pennsylvania Institute for the instruction of the Blind in Philadelphia. The organizer was J. W. Patton, one of the field secretaries of the Philadelphia Boy Scouts. Harold Molter, physical director of the institute, has been appointed scout master. He is putting the boys through various scout activities. The boys being unable to see, do their tracking by noises instead of by signs. In place of the wig wag method of signalling, they have adopted a rather unique method of sending messages. When out in the woods the boys send messages a short distance by tapping on trees. Basket making is one of the accomplishments of the blind boy scouts. In addition to the blind boy scouts of Philadelphia, there is a troop of boy scouts in the Light House in New York city, under H. W. Goddard, scout master. In Louisville, Ky., there is also a troop of blind boy scouts under Clifford B. Martin.

SEE JOSTEN FOR REFRIGERATORS

THE GENUINE "HERRICK" REFRIGERATOR is high grade in construction, workmanship, material and finish, and has one of the best systems of circulation ever produced. A continuous, pure, cold dry air is forced to every inch of its interior, keeping it always dry, sweet and clean. No mould, no taint, fruits drying instead of decaying. Air is purified at every circuit, all gases and odors being carried off.

MOTHERS, do you honestly believe your zinc lined refrigerators to be a safe place to keep the milk you feed your baby? Read what the sanitary superintendent of the New York Board of Health says on the subject: "Her ice box became the most dangerous thing in the house. This is true with such delicate foods as milk. There is a marked increase in the number of deaths among the children as soon as hot weather sets in, during which it is necessary to keep the milk in the refrigerator. Children form the most delicate thermometer of health, being more delicate and having less reserve force of life called stamina, they show quickly the evil effects of any cause." Your health is more precious than money. Parents should respect the hygienic truth for the baby's sake, even though they do not for themselves. Let us show you how to overcome the evil causes connected with different makes of refrigerators and to demonstrate to you the claims of superiority which we make for the "Herriek."

S.S.S. HEALS SORES AND ULCERS

S.S.S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood. External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only allay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the place, but instead they constantly discharge into the flesh around the sore a quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge. Since impure blood is responsible for Sores and Ulcers, a medicine that can purify the blood is the only hope of a cure. S.S.S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S.S.S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. Book on Sores and Ulcers and any medical advice free to all who write.

THE FRUITS OF FOLLY

The "militant" suffragettes of London have smashed something besides windows. When they destroyed the property of others for the mere purpose of making a public demonstration they destroyed, also, any chance there might have been for the immediate success of their cause.

The so-called conciliation bill which would have conferred the right of suffrage upon a million women in Great Britain has been rejected upon its second reading in the House of Commons. Last year it received a striking majority there. That body is now no less liberal and democratic than it was then. It probably contains as many members who have until recently been in favor of conferring the right to vote upon women.

The conclusion is inevitable that many members of Parliament have been alienated from the equal suffrage cause by the unreasonable violence, hysteria and lawlessness of Mrs. Pankhurst and her associates and followers.

And while no such riotous demonstrations have been made by suffragists in this country as have occurred in London there can be no doubt that they have caused many American voters who favor equal suffrage in theory to come to the conclusion that women, on account of sex temperament, cannot with safety to the nation be entrusted with the ballot.

We believe this is a misconception. The English woman is more the savage than is the American because the Englishman has kept his women folk in domestic slavery. In England it is not alone the ballot, but emancipation of women who want to no longer fear to call their souls their own. Had they been treated like rational beings they would argue their case; having been treated like domestic cats, they scratch.

THE PACKERS' ACQUITTAL

"The ten meat packers who have been under criminal charges for the violation of the anti-trust law have been acquitted," says the Outlook.

"The proceedings began ten years ago. In the course of these extended criminal proceedings the counsel for the packers have used a great many expedients to find some loophole in the law or in technical procedure through which the accused men might escape. They were checked at every point, and finally the case came to trial before a jury in Chicago. It was generally expected that the result would be a conviction, although that would not necessarily have meant the end of the proceedings. To the surprise of the government representatives at least, the verdict was one of acquittal. There immediately followed a sharp rise in the price of meats. It is to be remembered that this failure to convict under the criminal provisions of the anti-trust law is not due to the lawyers or to the judges, but to the jury. Those who are crying out for dealing with the trusts by criminal proceedings should have that fact impressed upon their minds. Here is a case of criminal proceedings ten years long, and the outcome is an acquittal by a jury. If anything ought to impress an even moderately intelligent mind with the uselessness of trying to solve the trust question by criminal lawsuits, it should be this case of the packers at Chicago. In this matter the government cannot be said to have been in any respect derelict. The case was prosecuted with all the skill that the government could command. The federal government, from the time Attorney General Knox instituted proceedings till this outcome, has pursued exactly the course it ought to have pursued. There is no indication that any other similar case would be more likely to be successful. A method that requires ten years to deal with a specific instance and then flattens out in this fashion is not a method that promises any results in dealing with a great problem. The whole country now ought to turn its attention to dealing with the trust question in a rational way by firm, constant, direct, immediate control through an administrative board."

Why not, also, regulation of burglaries, and government supervision of arson?

A good many people who have given the question study believe that a more definite criminal law and the elimination of a lot of technical defenses would be regulation enough. Does the Outlook recall Mr. Roosevelt's speeches about putting Mr. Trust Magnate in jail?

The owner of the Little Theater in New York says he built it for intelligent people. He has, however, put in 299 seats. New York egotism is past comprehension.

"The World is watching Augusta right now," remarks the Augusta, Ga., Chronicle. Spring training camp or circus?

A London suffragette predicts war between the sexes. But that doesn't interest Reno very much.

Its Effect

"There is one queer thing about the air of society."

"What is that?"

"It has a tendency to make a green man turn red."—Baltimore American.

Finds Cure for Epilepsy After Years of Suffering

"My daughter was afflicted with epileptic fits for three years, the attacks coming every few weeks. We employed several doctors but they did her no good. About a year ago we heard of Dr. Miles' Nervine, and it certainly has proved a blessing to our little girl. She is now apparently cured and is enjoying the best of health. It is over a year since she has had a fit. We cannot speak too highly of Dr. Miles' Nervine."

MRS. FRANK ANDERSON, Comfrey, Minn.

Thousands of children in the United States who are suffering from attacks of epilepsy are a burden and sorrow to their parents, who would give anything to restore health to the sufferers.

Dr. Miles' Nervine

is one of the best remedies known for this affliction. It has proven beneficial in thousands of cases and those who have used it have the greatest faith in it. It is not a "cure-all," but a reliable remedy for nervous diseases. You need not hesitate to give it a trial.

Easter

Mamie, who gave up her candy and flowers (Maybe that wasn't a saving to Will.)

Ella, who chanted her penance for hours, Millie, who gave up her dancing—and Phil,

All are released from the fasts and the pining, Now they may rave over bonnet and glove,

Greeting again, amid winning and dining, World and the Flesh and the Devil—and Love.

Comes now the lure of the satins that rustle, This is the time of the gayest of nups; Done are the days of the virtuous tussle

When it was sinful to do as you choose, Here is our chance to kick over the traces,

Here is the Spring with its gladness and vim, Eastward and westward there's joy in the faces (He looks at Her and She looks at Him).

Mother is radiant, father is worried, Wife is blissful and hubby is sad, Every young bachelor's feelings are flurried,

Watching the damsels so witchingly clad; Thus have I named for you, item by item, Plenty of goods from the Easter-tide shelf, Poets have sung them all—ad infinitum,

So what's the use—you can finish yourself! —Berton Braley.

Tried to Harness Cow

Secretary of the Treasury Franklin MacVeagh in an after-dinner speech, said:

"We must let in the light. We must not work in the dark. If we do, you know we will go wrong, like young Cornelius Husk."

"Cornelius Husk was called one morning before dawn and told to go down and harness the mule to the backboard. He was too lazy to light a lantern, and in the dark failed to notice that a cow was in the stable with the mule. As he tried to harness the cow, his father called impatiently:

"'Corney! Corney! What on earth are you doing?"

"I can't get the collar over the mule's head," said the boy, "his ears are frozen."—St. Louis Republic.

Bury Their Mistakes

The intended victim of a joke about the failure of prognostications was Prof. Willis L. Moore, chief of the United States weather bureau, and the occasion was a dinner at Washington, says the Washington correspondent of the New York World. Over the cigars and coffee he was made the subject of many jeers and gibes about the way the weather had been failing to measure up to the weather bureau's specifications.

"There's one thing to be thankful for, anyway," said a young doctor. "I see that you fellows are willing to admit that you are wrong."

"Well, as far as that is concerned," responded Moore, "we have to do that because we have no alternative. Now, with the medical profession it is different. You can bury your mistakes."—Ex.

His Offense

"Exceeding the limit?" cried Dawson. "Why, judge, your roads around here are so rotten a man couldn't go faster than ten miles an hour without endangering his life."

"That's the p'int," said the justice of the peace. "You was exceeding the limit o' safety, and we find ye guilty of attempted suicide. Ten dollars, if you please."—Harpers Weekly.

A New Novel By Harold McGrath

"That is the way I want to be loved. Always love me like that. Never wait for me to ask. Come to me at all times, no matter how I am engaged, and take me in your arms, roughly like this. Then I shall know, I have been so lonely; my heart has been so filled with love and none to receive it! I love you. I haven't asked why; I don't care. When it began I do not know either. But it is in my heart, strong and for ever."

"Heart o' mine, I'm going to be the finest lover there ever was!"

The great ship came up the bay slowly. It was a clear, sparkling winter day, and the towering minarets of business stood lined against the pale-blue sky with a delicacy not unlike Japanese shell-carving. A thousand ribbons of cheery steam wavered and slanted and darted; the river swarmed with bustling ferries and eager tugs; and great floats of ice bumped and jammed about the invisible highways.

"This is where I live," said George, running his arm under hers. "The greatest country in the world, with the greatest number of mistaken ideas," he added humorously.

"What is it about the native land that clutches at our hearts so? I am an American, and yet I was born in the south of France. I went to school for a time near Philadelphia. America, America! Can't I be an American, even if I was born elsewhere?"

"You can never be president," he said gravely.

"I don't want to be president!" She snuggled closer to him. "All I want to be is a good man's wife; to watch the kitchen to see that he gets good things to eat; to guard his comforts; to laugh when he laughs; to be gentle when he is sad; to nurse him when he is ill; to be all and everything to him in adversity as well as in prosperity; a true wife." She touched his sleeve with her cheek. "And I don't want him to think that he must always be with me; if he belongs to a man club, he must go there once in a while."

"I am very happy," was all he could say.

"George, I am uneasy. I don't know why. It's my mother, my uncle, and Horace. I am going to meet them somewhere. I know it. And I worry about you."

"About me? That's foolish." He smiled down at her.

"Why did Horace have you kidnapped into the desert? There can be no such a thing as the United Romance and Adventure Company. It is a cloak for something more sinister."

"Pshaw! What's the use of worrying, little woman? Whatever schemes they had must be out of joint by now. Sometimes I think I must be dreaming, 'little girl.'"

"I am not little. I'm almost as tall as you are."

"You are vastly taller in many ways."

"Don't be too sure. I am human; I have my moods. I am sometimes crochety; sometimes unjust and quick of temper."

"All right; I want you, temper and all, just the same."

"But will they like me? Won't they think I'm an adventuresome, or something like that?"

"Bless your heart, not in a thousand years! I'm a pretty wise man in some ways, and they know it."

And so it proved to be. Both Mr. and Mrs. Mortimer greeted them at the pier in Hoboken. One glance at the face of the girl was sufficient. Mrs. Mortimer held out her arms. It was a very fine thing to do.

"I was in doubt at first," she said frankly. "George is so guileless. But to look at you, my child, would shatter the doubts of a Thomas. Will you let me be your mother, if only for a little while?" with a wise and tender smile.

Shyly Fortune accepted the embrace. Never had she been so happy. Never had she felt arms like these about her.

"What did he cable you?" she asked in a whisper.

"That he loved you and wanted me to mother you against that time when he might have the right to take you as his own. Has he that right?"

"Yes. And oh! he is the bravest and tenderest man I know; and below it all he is only a boy."

Mrs. Mortimer patted her hand. A little while later all four went over to the city and drove uptown to the Mortimer home. On the way Fortune told her story, simple, without avoiding any essential detail. And all her new mother did was to put an arm about her and draw her closer.

The Mortimer home was only three blocks away from George's. So, when dinner was over, George declared that he would run over and take a look at his own house. He wanted to wander about the rooms a bit, to fancy how it would

look when Fortune walked at his side. He promised to return within an hour. He had forgotten many things, ordinarily important; such as wiring his agent, his butler and cook, who were still drawing their wages. He passed along the street above which was his own. He paused for a moment to contemplate the great banking concern. And the president of this bank was the elder brother of Ryanne! Lots of queer kinks in the world; lots of crooked turnings. He passed on, turned the corner, and strode toward his home, ecstasy thrilling his heart. Lightly he ran up the steps. Three doors below he noticed two automobiles. He gave them only a cursory glance. He took out his ring of keys, found the night-latch and thrust it into the keyhole. He never had believed in this putting up of iron gates and iron shutters. A night-latch and a caretaker who came round once a day was enough for any sensible person. He turned the key. Eh? It didn't seem to go round. He tried several times, but without success. Puzzled, he struck a match and stooped before the keyhole. It was a new one. (To be Continued)

LOCOMOTIVE ENGINEERS' REFERENDUM VOTE MAY RESULT IN GREAT TIE-UP OF TRAFFIC

Upper left, Charles B. Neill; upper right, Grand Chief Stone, of L. E. below, Martin A. Knapp, of Interstate Commerce Court.

Whether or not all traffic east of Chicago and north of Norfolk, Va., is to be tied up in the greatest strike of the year, just largely in the hands of Grand Chief Stone of the Brotherhood of Locomotive Engineers. The men are now voting in the question but in as far as this vote can be anticipated every indication points to the placing of full authority in the hands of their chief and his advisers. In case arbitration is found necessary to settle the differences, it is probable that the services of Labor Commissioner C. B. Neill and Martin A. Knapp, of the Interstate Commerce Court will be required.

look when Fortune walked at his side. He promised to return within an hour. He had forgotten many things, ordinarily important; such as wiring his agent, his butler and cook, who were still drawing their wages. He passed along the street above which was his own. He paused for a moment to contemplate the great banking concern. And the president of this bank was the elder brother of Ryanne! Lots of queer kinks in the world; lots of crooked turnings. He passed on, turned the corner, and strode toward his home, ecstasy thrilling his heart. Lightly he ran up the steps. Three doors below he noticed two automobiles. He gave them only a cursory glance. He took out his ring of keys, found the night-latch and thrust it into the keyhole. He never had believed in this putting up of iron gates and iron shutters. A night-latch and a caretaker who came round once a day was enough for any sensible person. He turned the key. Eh? It didn't seem to go round. He tried several times, but without success. Puzzled, he struck a match and stooped before the keyhole. It was a new one. (To be Continued)

CHIEF CHASE HAS ATHLETE BROTHER

Harry Chase Would Pitch for Locals This Year; Malloy Claims a Good Team

Harry M. Chase, a brother of Chief Chase, well known twirler in the Minny league, wrote the management of the Outcasts yesterday informing them that he would like to sign up with the locals. The chief's brother is located at Luck, Wis., and he is also a pitcher. He was to have been with Manager Corrigan in the Western Canada league, but when that organization was disbanded he was without a job.

Malloy Has Goods
A letter from Mike Malloy, manager of the Wausau baseball club of the Wisconsin-Illinois league, was to the effect that the Lumberjacks have a team which should prove a winner. Mike told President Elliott that he has a promising lot of youngsters and that he expects to have a good club. Wausau will train at Chicago this spring and good training quarters have been secured.

Mike states that he is in good condition now and that he expects to have a banner year. He intends to play left field during the season. Malloy says that Manager Killian of Oshkosh wants to get Pitcher Ballies away from him but that the twirler has already been signed by Wausau. Mike also wants to sign sign Johnson, former Duluth pitcher, for his pitching staff.

Good With Pelicans
William G. Lehr, former meat inspector at Langdon & Boyd's, wrote Mr. Elliott from New Orleans, where he has seen Wagner, former member of the Winona team, play this spring. Mr. Lehr states that Wagner is doing excellent work with the Pelicans and that he is making good.

Arthur Chirpeck, C. M. & St. P. brakeman, who is at Hot Springs, Ark., has seen the Pittsburgh Pirates train and he states that this team looks like a championship aggregation this year. He saw Pitcher Noel, formerly of Oshkosh, wirl for the youngsters against the veterans and the Oshkosh twirler did excellent

Murder Wichita, 13 to 5, in Scrappy Game; Brown Wins First Game for Cubs

WITCHITA, Kas., April 5.—Showing so much "Pep" that the manager and coaches are unable to hold them down, the White Sox youngsters today took to heart the verbal lashings administered by Callahan and practiced as though it was there last chance to play ball. The new spirit began to show yesterday when the Sox butchered the local team by a score of 13 to 5, scoring three home runs. Peters and Deihl allowed Wichita 16 hits.

Brown Wins Game
TERRE HAUTE, Ind., April 5.—The Cubs left here early today for Indianapolis where they begin a four game series. Mordecai Brown of Rosedale was voted as "good as ever" by the home boys here following yesterday's festivities of "Brown day" when the "three fingered" one formally launched his 1912 season. The Cubs won 7 to 3.

St. Paul Beats Pirates
HOT SPRINGS, Ark., April 5.—Poor hitting is given as the principal cause today of yesterday's defeat of the Pirates in the second game of the St. Paul series. Clark and his slugger failed in the pinches and the decision went against them, 3 to 1. It was a pitchers' battle throughout.

Nap Team Splits
NEW ORLEANS, La., April 5.—The Cleveland Naps left their New Orleans training camp this morning, the regulars going to Baton Rouge and the Yankigans to Vicksburg.

Ty Cobb Stars
CHATTANOOGA, Tenn., April 5.—To show the skeptical ones that he was just as good as ever Ty Cobb in the Tigers' game with Chattanooga yesterday got two three base hits, two singles, stole three bases and work, as the veterans could do nothing at all with him.

COUGHLIN CHOSEN TO MANAGE TEAM

At a meeting of the North La Crosse Baseball club which was held last night for the purpose of organizing a team for the coming season, Ed Coughlin was elected manager. A number of last year's players were present and a successful season is looked for.

It was decided that a tryout for places on the team is to take place on Sunday morning, April 14, when all wishing to play with the club will be given a chance to show what they can do. As soon as this tryout has been held the club will be organized and work on arranging a schedule will be begun.

The club will give a dance in the near future and committees to take charge of the affair were appointed.

U. S. LEAGUE BEHIND BALL TRUST PROBE

CINCINNATI, O., April 5.—That the United States league was behind the move that caused Representative Gallagher to introduce a resolution in congress to investigate organized baseball as being a trust, developed here today when Hugh McKinnon, manager of the local United States league team opened negotiations with Bugs Raymond to pitch for his team.

McKinnon was reminded that Raymond was on the reserve list of the New York club. "We recognize no reserve clause," said McKinnon. "That is where the ball player is held in slavery and one reason why the United States league fathered the Gallagher resolution. Representative Gallagher, we understand, has received thousands of letters from ball players offering to appear as witnesses if an investigation is held.

scored one-third of the Tigers' runs. The Tigers won 15 to 5.

Muggsy Fires Two
BALTIMORE, Md., April 5.—With the release of Outfielder Jack Johnston and Catcher Paulette to Providence, John McGraw today prepared to continue his weeding out process. According to good authority the Giants' leader will probably turn loose about six other players in the next week.

Reds to Play Boston
CINCINNATI, O., April 5.—The Cincinnati Reds went to Columbus today for an exhibition game with the Columbus club. The Reds will start a series of exhibition games at the new Cincinnati plant Saturday, tackling the Boston Red Sox.

PLANS FOR LIBERTY

WASHINGTON, April 5.—In her cell at the government hospital for the insane Mrs. Gage, a wealthy widow, charged with threatening to kill Charles J. Bill, millionaire banker, today planned her final fight for liberty in court next Thursday. Prominent society women are rallying to Mrs. Gage's support.

STRIKE STOPS TRAINS

SHAMOKIN, Pa., April 5.—The Reading Railroad company today announced that pending settlement of the strike it has withdrawn its trains owing to the miners action here and at Dunkelburger where the Kathryn colliery is located. Threats to derail the train, and one alleged attempt are given as the reason for this action.

ALLENS ARE SAID TO BE KILLED

BARRIEN SPRINGS, Va., April 5.—Efforts to confirm from here the report widely current in Hillsville that there had been a battle between Sidna Allen and Wesley Edwards, the last two of the Allen outlaws at large, in which the outlaws were killed and two detectives fatally wounded, have failed. Only a few of the telephone lines that penetrate into the wilderness where the outlaws took refuge were in working order.

SHUT DOWN ON JACKIES' LIBERTY

WASHINGTON, April 5.—Twelve thousand sailors of the Atlantic fleet in Hampton Roads, Va., are disgruntled over orders from the Navy Department calling off "shore liberty" privilege until after the April sea practice. The bluejackets have had little liberty since Christmas, except a few baseball games and other sports at Guantanamo.

RIOTS IN MILL STRIKE AT PASSAIC

PASSAIC, N. J., April 5.—The most serious riot of the present textile strike took place today when Charles Rothshiner, an organizer for the Industrial Workers of the World, defied Sheriff Robert Conklin's manifesto against public meetings and was arrested. Sympathizers tried to rescue him and in the fight that followed, the deputies used clubs and revolvers. Despite the fact that they fired a volley point blank at the mob none of the men and women composing it was hit.

92, KILLS HIMSELF

CINCINNATI, Ohio, April 5.—Henry Appiarus, who would have been 92 in two weeks, committed suicide early today at his home in Harrison, near here, by cutting his wrist with a razor. Several days ago he fell and bruised an ankle. He became despondent over his crippled condition.

DANCING MASTER JAILED

MUNICH, Germany, April 5.—A flourishing school for the new art of nude dancing, termed "reform dancing," has been raided by the Munich police and Albert Hieber, who calls himself "Academic Director" is under arrest.

FAN-ATICAL FANCIES

The basketball season at the high and normal schools has now come to a close and the attention of the athletes at these schools will now be directed towards turning out winning baseball and track teams. Candidates for the baseball and track teams are already working out and the regular practice will soon be begun.

It is now up to Duluth and Superior to either pay up for their releases from the Minny league or else stay out of baseball altogether. Moreover they will have to settle with the league within one week's time. Guess that's telling the northern towns what to do. The Minny league presidents seem to doubt that the northerners want to play independent baseball.

The famous Cy Young, grand old man of baseball who recently celebrated his forty-fifth birthday, has been picked to pitch a game for the Boston Nationals against the Washington Americans today. This is Cy Young's twenty-third season in the big leagues and he is apparently able to make many men much younger than he is work hard to beat him.

WOLGAST FIT TO FIGHT

DECLARES HE FEELS BETTER THAN EVER, AND IS WILLING TO DEFEND HIS TITLE ANYWHERE

SAN FRANCISCO, Cal., April 5.—Ad Wolgast is ready to resume the defense of his lightweight title on July 4. The little champion who leaves here tonight for Los Angeles declares he feels better than ever before and is willing to take on any of the serious contenders for the championship on Independence Day.

"I believe I shall be fit to take on anybody," said Ad. "I will even give Packey McFarland a couple of pounds advantage. I will, of course, try myself out first in the east in short bouts, but I feel fit right now to go the full distance."

BANK TREASURER SHORT

WINDSOR LOCKS, Conn., April 5.—A signed statement issued by the directors of the Windsor Locks savings bank shows the exact shortage of Treasurer Converse to be \$147,369.29. The total amount due depositors is \$593,571.79, with assets

MIND HAS POWER OVER DISEASE?

Dr. Hill Tells Medical Society Germs Are Not Controlled by the Mind

SAYS SANATORIA ARE NEEDED

Would Isolate All Tuberculosis Patients; Says Children Are Neglected

That fear of disease plays no part in the contracting of the disease and that the employment of an appearance of bravado is useless as a means of preventing the catching of contagious diseases, is the declaration of Dr. W. H. Hill, Minneapolis, who spoke before a large audience at the meeting of the La Crosse County Medical society at the First Congregational church last night.

"Nobody can become immune from a disease merely by controlling the mind, as the mind has absolutely no power of governing the annexation of germs," declared Dr. Hill. Much of his lecture was devoted to a discussion on tuberculosis during which he declared that the only means of entirely wiping out this disease is legislation compelling the erection of county tuberculosis sanatoria, and the isolation of all tuberculosis patients.

Dr. Hill gave a full explanation in regard to the catching of diseases telling how germs are passed from one body to another and the precautions which should be taken to prevent this.

The child problem is one which, Dr. Hill declares, is sadly neglected, and which is the greatest cause of poor health which the medical world has to contend with.

According to Dr. Hill most children are raised in a "happy-go-lucky" fashion and if they are exceptionally healthy, they manage to weather the storm until they reach an age where they are able to take care of their own physical condition.

"Many children when sent to school do not learn as rapidly as others and this is invariably put down as lack of brain power although the real cause is more often poor eyesight, defective hearing and poor health," said Dr. Hill. Handicapped by these, the child misses essential parts of lessons.

TOMAH MAN FALLS DEAD IN MILL

TOMAH, Wis., April 5.—After being at work but a half hour yesterday morning at the Goodyear planing mill, John Herzog remarked to his son that he was not feeling well, and before he could say another word he fell to the floor dead.

Mr. Herzog went to work yesterday the same as usual and his death came unexpectedly. He was removed to his home, which is not far from the mill.

He is survived by his wife, three sons and one daughter.

Funeral arrangements have not yet been completed.

DON'T INVITE SICKNESS

Thin Blood Is a Standing Invitation to Every Disease That Is Prevalent.

Thin, impure blood is an invitation to sickness. The blood is at work, day and night, to maintain the health and any lack of strength or purity in the blood is a weakness in the defense against disease. Anemia is the doctor's name for lack of blood. There may be an actual loss in the quantity of the blood or one or more of its constituents may be lacking. Its surest symptom is pallor. Anemia is particularly common in young girls from 14 to 17 years of age. It is not confined to them for it is this same lack of blood that prevents full recovery after the grip, fevers, malaria and operations and is present in old age and in persons who have been under an unusual physical or mental strain.

If you are suffering from anemia you can profit by the experience of Mrs. H. J. Albertz, of No. 3244 Glendora avenue, Cincinnati, Ohio, who says: "I was in a terrible condition, all run down, nervous and hysterical some years ago. I had no appetite and was troubled with gas on the stomach. I was almost a skeleton and weighed only 106 pounds. I had no desire to live. I couldn't sleep well, was pale and sallow and there was no color in my lips at all. There seemed to be a pressure on the top of my head. I had palpitation of the heart and was short of breath on going up stairs or upon the least exertion. I doctored incessantly and was told that I lacked blood. The doctor gave me tonic after tonic and advised me to take plenty of exercise and fresh air. He finally said he could do nothing for me. I felt very much discouraged. One day I came across a pamphlet in which I learned about Dr. Williams' Pink Pills for Pale People. After taking four boxes I felt much better, in fact like a new person. I felt cheerful and happy. I began to take on flesh. I took twelve boxes and the change in me was something marvelous. I looked the picture of health. I think Dr. Williams' Pink Pills for Pale People are the grandest medicine for a general breakdown of the system."

Send for free booklet, "Diseases of the Blood."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes, \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

TO STOP FRENCH DUELS BY LAW

Bill Providing Fine and Imprisonment for Offense Planned to End the "Battles"

PARIS, April 5.—The bill proposing fine and imprisonment for duellists and their seconds has passed the committee stage with honors and the chamber of deputies may make the bill a law soon.

Some months ago the Abbe Lemire, a priest-deputy, declared duels to be utterly useless and dangerous and introduced a bill at the chamber calling for penalties of from six days to three months for those who engage in them as principals or seconds. And the editor of a newspaper which prints an article insinuating that any man who has refused to challenge another to a duel, or has refused to respond to a challenge to one, will be similarly imprisoned or fined.

"I am very much in favor of the bill," declared Chairman Chanoir of the committee, though he has fought six duels himself in his day. "The duel is no longer a question of honor," he continued. "It is a sport, an amusement, some times even a mere parade. And it will retain this character until the day when an accident will happen and some one will be killed. Then duellists' eyes will be opened, but too late."

In several of the recent flood of duels, men who never had a sword in their hands were compelled, by the so-called code of honor, to fight expert swordsmen. Newspapers have taken up the crusade, pointing out that it is rather doubtful honor for an expert to force a tyro to duel with unfamiliar weapons.

DELEGATES WILL HOLD MEETING SOON

MILWAUKEE, Wis., April 5.—The next thing on the political program so far as the state is concerned, will be the meeting of the delegates elect of each party for the purpose of selecting thirteen presidential electors. Following this, at some time not less than fifteen days before the time for holding the national convention, the state central committee of the different parties will meet to elect alternates for the delegates.

The law says on the subject of selecting presidential electors:

"The delegates of each party chosen at said election for delegates to attend the national convention shall meet on the third Tuesday of April succeeding such election and nominate by a majority vote one elector for president and vice president from each congressional district and two such electors from the state at large. The names of such nominees shall be immediately certified by the chairman and secretary of the meeting to the secretary of the state."

The section providing for the selection of alternates, says:

"It shall be the duty of the state central committee of each political party, between the holding of such delegate election and at least fifteen days prior to the holding of the party national convention, to meet and elect four alternate delegates at large and two alternate delegates from each congressional district. Said meeting shall be called by the chairman of the party state central committee upon at least ten days' notice."

CONFIRMS SEN'S STATEMENT

WASHINGTON, April 5.—Dr. Sun Yat Sen's statements to the United Press that the new Chinese republic will adopt the "single tax" plan, were confirmed today by Representative Henry George, Jr., of New York, son of the famous "single taxer."

WOMAN STARTS FIGHT

SITS IN HUSBAND'S CORNER THROUGH BLOODY FIFTEEN ROUNDS, AND SPURS HIM ON

PORTLAND, Ore., April 5.—While Mrs. Neuhausen sat in an arm chair in her husband's corner urging him on, Thomas B. Neuhausen, former United States secret service operative and timber dealer, and John Beckley, a prominent real estate man yesterday fought fifteen bloody rounds to a draw in Beckley's office. Neuhausen named Francis J. Heney in his timber fraud prosecutions.

The fight resulted from an insult alleged to have been offered to Mrs. Neuhausen by Beckley. Mrs. Neuhausen and Beckley had both listed the same house for sale and yesterday they met and quarreled. When the woman notified the real estate man that she would whip him, he is alleged to have ridiculed her, saying:

"Oh, go on home and put on a pair of pants."

Mrs. Neuhausen, angered, summoned her husband and the men went to Beckley's office and "fought it out." A small crowd gathered to see the fight and when one of them offered to interfere Mrs. Neuhausen said: "No, let them fight it out."

After an hour of very savage milling the two men were exhausted and the referee called it a draw.

LEHNER RETURNS FROM WASHINGTON

MADISON, Wis., April 5.—Phillip Lehner, agent to the governor, has returned to Madison from Washington, D. C., where he represented the state in securing legislation affecting the state school and swamp land bill was introduced in congress by Representative J. J. Esch of La Crosse. The matter had been pending for several months at the preceding session where the department of the interior reported adversely to the bill, and again reported adversely to the original Esch bill at the present session. Mr. Lehner then redrafted the bill and a unanimously favorable

report was received from the subcommittee to the full committee on Indian affairs, where it is now pending.

As agent for the governor, Mr. Lehner was attorney in the executive department at the last session of the Wisconsin legislature and will probably remain here for the special session. He is figuring prominently as a republican candidate for attorney general.

AUTO KILLS CHILD

BRAINERD, Minn., April 5.—Joseph Brandt, aged 28, son of railroad man, is under arrest as the result of fatally injuring the three-year-old son of Rev. A. Zable, pastor of a church here. Brandt is alleged to have driven his touring car over the child, crushing its skull.

WITNESS WOUNDED

BURNS, Ore., April 5.—Herman Scott, a book agent of Knapp, Minn., who furnished evidence upon which

three men were indicted for gambling, is lying dangerously wounded here as the result of a cutting fray following his release from jail. The knife was wielded by John Osborne, who has lived in this section several years.

BARABBOO CHILD DROWNS

BARABBOO, Wis., April 5.—While playing about the mill race Wednesday night, Herbert, 6 year old son of Ernest Scales, and a companion named Bergie, fell into the stream. Bergie was rescued, but the Scales boy was drowned. The body has been recovered.

"I am the real ultimate consumer," said Doc Robinson recently, as he picked out a rotten banana from a garbage can.

TWIN PORTS TO BUY RELEASES

Duluth and Superior Will Settle with Minny and Join the Northern League

According to advices received here today Duluth and Superior have at last decided to pay the Minny league for their releases and to withdraw from the organization. At the league meeting held here Wednesday it was voted to make the twin ports pay for their releases and to allow them one week's time in which to settle.

President J. A. Elliott said today that he had heard nothing from either Duluth or Superior in regard to the settlement but he sent them notice of the decision of the league directors yesterday afternoon. This would hardly allow the northern cities time to notify him of their decision although dispatches from Duluth are to the effect that the league's demands have been accepted.

Following this advice comes word that both Duluth and Superior are to join the Northern league as soon as they have their releases from the Minny league. This indicates that they were not sincere when they told President Elliott that they intended to play independent ball this year as they are seizing their first opportunity to enter another league, and this was what they declared they were not going to do. At the league meeting here Wednesday several of the directors expressed the opinion that the assertion of the twin ports that they intended playing independent ball was merely a blind as this would not pay them.

The Northern league will be made up of Grand Forks, Fargo, Virginia, Winnipeg, Superior and Duluth, a six club circuit. It is said that Mr. McCuen is starting the formation of a new association and that he expects to have it perfected soon.

It is reported that the league compromised with Duluth and Superior by cutting their release price in two but at the meeting the directors decided to make the clubs pay up in full. When both clubs pay up, about \$800 will be added to the treasury of the Minny league.

When President Elliott was in Duluth last Sunday the two northern clubs denied absolutely that they intended entering the Northern league as they said at that time they did not think the league would last long during the season. However, after that, even before they have paid for their releases, comes the advice that they are to join the league in question.

EASTER LONGING GETS TRAMP; 35 DAYS

Harry Lawrence, a citizen of the wide world but who will receive those who care to call on him in the La Crosse county jail for the next thirty-five days, came into his new home through an overwhelming desire to possess a new Easter overcoat. His method of getting the overcoat is what especially came under the disapproval of Judge John Brindley before whom he was arraigned this morning. He was accused and pleaded guilty of stealing the overcoat from Dr. R. M. L. Kinnear whose office he visited on a begging expedition. He nabbed the spring raiment when the doctor was not looking. Lawrence was much under the influence of liquor and already in the hands of the police when the complaint was made that the coat was stolen. It is expected that overcoats will be superfluous garments when he gets out.

JOHNSON-FLYNN BATTLE IS SURE

EAST LAS VEGAS, N. M., April 5.—The Johnson-Flynn battle will positively occur in July, unless Johnson forfeits the money he put up. Several towns are after the match. Las Vegas looks good to me, but the deal is not finally closed.

This is what Jack Curley said today when told that Jack Johnson appeared to be fretting over the match and that the negro had stated yesterday that he was not sure Curley and Flynn are sincere.

"I have until May 1 to name the place," Curley added, "and on that date I will turn over to Stakeholder Al Tearney \$1,100 to cover Johnson's training expenses."

50,000 TREES TO BE PLANTED AT SPARTA

That 50,000 small trees will be planted at the United States rifle and artillery range near Sparta during the coming summer under the direction of the United States forestry bureau, is the information contained in a letter from Congressman John J. Esch from Washington today. Thirty thousand will be of Scotch pine and the remaining 20,000 will be Norway pine. William B. Piper, acting forest supervisor of the United States forestry bureau, originated the idea.

CAPTAIN RESSER IS BURIED YESTERDAY

A large number of friends and relatives attended the funeral of Captain Jacob G. Resser of French Island, who was found dead Monday, which was held from the undertaking parlors of Fessler & Dahl yesterday afternoon at 2:30. The Wilson Colwell post of the G. A. R. attended the funeral to pay their last respects to the memory of their comrade, Rev. Henry Faville officiated at the services.

R. E. Osborne, George Wright, J. H. Lightbody, William Grover, Samuel Guertin and T. O. Lawrence were the pallbearers. Burial was made in Oak Grove cemetery.

TONG WAR ON AGAIN

SAN FRANCISCO, Cal., April 5.—The war of the Chinese tong broke out anew early today when two members of the Yue Ying Tong shot and fatally wounded Tue Quong Sing, a member of the Hip Sing Tong. Immediately after the shooting the police department flooded Chinatown with bluecoats but no trace of the slayers was found.

MANAGER WILL BE ELECTED MONDAY

A meeting of the directors of the La Crosse Baseball association has been called by President Miller for Monday morning when a manager for the team will be elected and it will be decided what repairs are to be made on the grandstand which was damaged by the tornado last year. A ground keeper for the park will also be appointed and several other matters in connection with the club will be attended to.

No Difficulty. George W. Wilson was rehearsing with Edwin Booth at the Boston museum. Wilson, in one scene, asked the star where he should stand. "Where do you usually stand?" asked Booth. "Mr. Barrett had me over there," answered Wilson. "Yes," mused Barrett, "I usually have him there"—indicating the other side of the stage. "Suit yourself—I'll find you wherever you are," said Booth.

A Success. "Was her bridge whist party a success?" "Yes, indeed. The woman she wanted to win got the prize."

MATT WELLS

BOOSTS FOR SHELBY

CHICAGO, April 5.—To attempt to review the public service which Shelby McCullom has rendered would be to call the roll of achievements of the republican party. He has been with it from the beginning. With this statement, James H. Wilkerson, United States district attorney, today addressed the first public meeting in the interest of the Culom's candidacy for re-election to the United States senate.

MARSHALL PASSIVE SEEKER

WASHINGTON, April 5.—Governor Marshall of Indiana quietly dropped into town today and disclaimed any "active chase" after the democratic presidential nomination. "The only way the nomination is likely to come my way is through a deadlock," he explained.

AD WOLGAST

The question of who will pull down the \$16,000 purse offered by the National Sporting club of New York for a bout between Packey McFarland and either champion Ad Wolgast or Matt Wells is attracting international attention. The purse hung up is \$16,000. While McFarland is featured as the central figure in the fight his opponents will undoubtedly demand a big end of the purse. In case Ad Wolgast is drawn into the fray he will want at least \$10,000 and probably it will be nearly \$12,000. Wells considers himself also a drawing card and would undoubtedly demand \$8,000.

McFARLAND MORAN

ORDERS RATE POSTPONED

WASHINGTON, April 5.—Indefinite postponement, pending a further investigation throughout the country was ordered by the interstate commerce commission today of the date when its order in the St. Louis Grain Elevator allowance case should go into effect. The original order required half a dozen carriers after April 15 to cease paying the elevator allowance.

DRYS NAME DELEGATES

DELAWARE, O., April 5.—Dr. A. S. Watkins, vice presidential candidate on the prohibition ticket in 1908, and H. L. Peeke of Sandusky, were named Ohio members of the National committee at the state prohibitionists convention here this afternoon. The convention approved initiative, referendum and recall and woman suffrage.

tion prevails to the west to a point beyond Bowdoin.

There still remains nearly two feet of snow on the bench lands to the north of Glasgow and there is every indication that the flood will soon become a menace to life as well as property.

Congress Holds Back

WASHINGTON, April 5.—Unless Mississippi flood conditions become worse congress will not appropriate money for the relief of the flood victims. Chairman Fitzgerald of the house appropriation committee stated today after a conference with President Taft and Red Cross officials.

"So far as the president is advised, the war, Red Cross and local authorities are unable to afford ample relief for those made homeless by the floods," Fitzgerald stated. "We will hold in abeyance the James resolution appropriating \$250,000 for relief of flood sufferers."

ROWENA CIRCLE PARTY

La Crosse Rowena circle, B. of A. Yeomen, gave a progressive cinch and 500 party in Linker hall Monday afternoon. Prizes were won by Mesdames Thatro, Dennison, Gahan, Gudenschwager, Rossberg, Evans, Schneeberger, Kabat and Drake. The circle held their regular meeting in Linker hall. After the meeting progressive cinch was played for prizes of Haviland china, which were won by Mesdames Vondrashek, Mullenberg, Raymond, Berndt, Moesser and Roth. The circle has decided to hold their next public cinch party Tuesday afternoon, April 9. Ten prizes will be given. All arrangements are being completed for the leap year party to be given in Linker hall Tuesday, April 16. The B. A. Y. will take in a large class of new members at their next meeting, April 8. The full work will be put on and the stereopticon views which were donated by the circle will be used for the first time.

MERCY CASE IN HANDS OF JURY

CHICAGO, April 5.—The \$100,000 damage suit that grew out of the disappearance of an aigrette from the \$250 hat of Esther Mercy, the University of Chicago co-ed, will go to the jury late this afternoon. Attorney Everett Jennings today made the closing argument for the girl. He savagely arraigned Attorney Francis A. Walker, representing the defendant, Dean Marion Talbot. He charged that Walker, to defend the university and its faculty, was forced to unjustly assail the character of the girl.

"This whole case amounts to this," said Jennings. "This girl was charged with conduct unbecoming a student and with all manner of wrong doing because she had the temerity to charge some one in the house of Mrs. Van Jahn, a relative of one of the family, with stealing her aigrette. She was driven out of the university because she demanded satisfaction for the loss of a feather."

Cautious Through Experience.

"Come over and play with my little boy, sonnie," called the pleasant-faced new neighbor to the solemn-faced urchin on the fence between the two lots.

"Is your little boy sick of anything?" came the child's earnest question.

"No, indeed, sonny. Why?"

"Cause I've had my tonsils taken out, an' my adenoids removed, an' my appendix cut out, an' I've been vaccinated an' serumized for typhoid an' spinal meningitis, an' I do hope I won't have to have anything done to me this year, so's for a little while I can have a bit o' fun!"

Daily Glimpse of Manhattan.

The question of chief public interest is not whether head waiters call themselves "dining-room superintendents" or by any other name, but rather what effect such a change will have upon the amount of backsheesh exacted from the hapless diner. Will the tip increase as the square of the title?—New York Tribune.

Whitewings Appear and the Streets Are Cleaned; New Paving Planned on Green Bay Street

La Crosse has just finished its spring house cleaning and is now in spic and span condition, prepared to look its nicest on Easter morning. Every foot of paved streets in the city has been swept and the winter's accumulation of dirt hauled away. The sprinkling wagons made their first trip in the business sections of both the north and south sides yesterday and the "white wings" put in their first appearance today. The garbage cans have been placed on the corners and it is up to the citizens to help keep the city clean.

The street department of the board of public works is having the new signs painted and inside of two weeks the city will be "signed" from end to end. As soon as the spring rains, which are needed to complete the cleaning of the streets, are over the department will commence the repair work. A big program in this line is planned by the board and many miles of street will be put into good condition this summer.

Four blocks on Green Bay street is being covered by broken concrete which was donated by the Gund Brewing company. When this street is rolled it is expected to be as good as macadam. It will make a much shorter run for fire department No. 4 in case they are called to the brewery. It was formerly necessary to go by way of West Avenue because of the sand on Green Bay street. It cuts their run about six blocks.

Contractor Thomas E. Wooley commenced laying the water pipe on Winnebago street yesterday and expects to continue the work up to July. His work on the north side is being delayed by the high water in the La Crosse river, which he must cross with the main. He has about two miles to lay on the north side.

The work of macadamizing Madison street will be taken up by the street department probably the latter part of this month.

FINANCIAL STARS ON CORONER'S JURY

NEW YORK, April 5.—The most remarkable coroner's jury ever assembled in New York was called together today by Coroner Shogut to pass on the killing of J. Harry Lavelle, by Benjamin F. Jackson at the latter's home on March 22. Both were prominent in political and financial circles and members of many fraternal organizations.

George W. Perkins, formerly of Morgan & Co., was foreman of the jury, while number two was George B. Cortelyou, former cabinet officer and now head of the Consolidated Gas company.

The other ten men were bankers, real estate men and merchants. Jackson alleged that he killed Lavelle in self defense when the latter came to his house to beat him because he had engaged Lavelle's sister as governess to his child.

Searches for Buried Treasure.

A countess who lives near Rome is carrying on a search for buried treasure. She found in her library an old manuscript, wherein was told of a treasure buried in her land, and directions given for the excavations. A Spiritualist is said to have informed the countess that the words of the manuscript are true.

History Repeats Itself.

Not long since a restaurant was started on Tenth street just north of Market. It was called "the Napoleon," and the name was on the window in large letters. When the place failed not long after starting, some cruel wag chalked under the word "Napoleon" "at Waterloo."—Pittsburg Dispatch.

Honor Utterer of Epigrams.

The Japanese are great admirers of epigrams and apt phrases. Their love of such things is carried so far that when a guest says something unusually brilliant the host or hostess will beg him to write down his remark in large ornamental script. The sentence is then mounted and hung on the wall as a permanent addition to its ornaments, much as we might hang up a text or motto. Naturally the author of a bon mot treated in this way feels himself highly honored to be thus placed on record. But the sentences are selected more for their wisdom than their humor; so that the funny man is not much in evidence.

Uncle Pennywise Says.

Of course, every man can explain the referendum, but the wise man doesn't try.

U. S. OFFICER IS FIRED FOR CRUELTY

WASHINGTON, April 5.—Convicted by court martial of inflicting cruel punishment upon Philippine native privates in his command first Lieut. Ora Houser of Ohio, in command of the twenty-sixth company of Philippine scouts, was dismissed from the service today. The charges against Houser were that the officers tied native Filipinos to posts, leaving them trussed up as long as 24 hours. Tying soldiers so that they had to remain partially immersed for hours was also charged against him.

WASHINGTON PRIMARIES PLAN

WASHINGTON, April 5.—Presidential preference primaries for the District of Columbia was unanimously approved by the house district committee today which ordered a favorable report on the bill of Representative Norris, the Nebraska progressive.

AGED MAN DIES

NEW YORK, April 5.—William Dick, 89, one of the pioneer officers of this city, died at his home in Brooklyn today from old age.

His Definition.

A southern congressman recently met for the first time in some years an aged dandy who was formerly in the representative's service. During their converse the congressman learned the interesting fact that his old servant had, in his advanced age, learned to read.

"Well, now, Sam," remarked the former master, "that makes things interesting for you, doesn't it? You should find pleasant companionship in books and papers."

"Yessah," oracularly assented the old man. "Readin' is shore a great thing sah. I has given de matter considerable consideration, sah, an' I is prepared to say, sah, dat readin' is de power of hearin' with de eyes."—Lippincott's.

FEDERALS DEFEAT GENERAL CAMPA

Rebels Storm Parral, but
Are Thrown Back; An-
other Attack Is
Made

FEDERALS PICK UP COURAGE

Victory at Parral Embold-
ens Troops to Carry the
Fighting Into Oroz-
co's Territory

EL PASO, Texas, April 5.—Mex-
ican rebels under General Inez Sala-
zar, 1,500 in number, again attack-
ed Parral yesterday, according to
advice from rebel headquarters at
Jimenez. The defeat of Campa, the
rebel general, at Parral Wednesday,
was complete and is so admitted by
the rebel commanders. Campa is not
taking part in today's attack on the
mining city. Major Quevedo, who
with 400 rebels, was left by Campa
to protect the retreat of the main
rebel force to Jimenez, held back the
federals for hours, but was himself
finally forced to fall back into the
mountains.

In Parral are 2,000 federals under
command of Generals Villa, Solo, Ur-
bina and Tellez, the latter arriving
with 600 men before Campa's attack.
The rebel generals say Campa had
only three killed and 12 wounded in
the fight, but advices from federal
sources say the rebel losses were
much heavier.

Federal losses are not given, but
it is known that severe damage to
buildings in Parral was done by
Campa's artillery before the federals
silenced his guns, and captured two
of them.

Dispatches from Jimenez say the
routing of Campa has given the fed-
eral force great confidence and has
inspired them to force the fighting
into the territory now controlled by
Orozco. If they do this, Orozco will
have to abandon his Torreón cam-
paign, at least for a time. In ad-
dition to a strong force of federals at
Parral, the federals have between
2,000 and 3,000 troops under Gen-
eral Huerta approaching Jimenez
from Mexico City.

Today's renewed attack on Parral
by Salazar is part of Orozco's plan to
keep the federals so busy that they
will not be able to affect a junction
and attack him in force. Today's
battle was expected to be decisive.
Salazar is in entire command of the
attackers. He is working from a base
at Baca, twenty miles from Parral,
which he established last night.

WISCONSIN GETS NEW PROFESSORS

MADISON, Wis., April 5.—Twelve
professors from other colleges and
universities have been added to the
faculty of the University of Wiscon-
sin Summer Session, the six weeks
term of which opens June 24. They
are: William E. Lingelbach, profes-
sor of modern European history, Uni-
versity of Pennsylvania; George E.
Howard, professor of political sci-
ence, University of Nebraska; Walter
W. Cook, professor of law, Univer-
sity of Chicago; Albert M. Kales, pro-
fessor of law, Northwestern Univer-
sity; George Kriehn, preceptor of
fine arts, Princeton University; Fran-
cis Walker, special examiner, Bureau
of Corporations, Washington, D. C.;
Mrs. Anna Garlin Spencer, New York
School of Philanthropy; Homer E.
Hockett, Associate Professor of Amer-
ican history, Ohio State University;
Peter W. Dykema, New York Ethical
Culture school; Richard F.
Scholz, assistant professor of Euro-
pean history, University of Califor-
nia; Blanche M. Trilling, associate
director of physical education, Chic-
ago Teachers' College; and Celestine
Schmidt, Milwaukee Trades School
for Girls.

Dr. Lingelbach, who is an authori-
ty in his subject, will offer courses
dealing with the French revolution
and the reign of Napoleon, and the
history of nineteenth century Eu-
rope.

Dr. Kriehn will be in charge of the
work in modern art and Italian art.
The summer school course in festi-
vals will be under the direction of
Peter Dykema of New York City.

PANIC ROFITABLE TO THE BANKERS

To the banker there is profit in
financial panics, declared David R.
Forgan, himself a banker of Chicago,
urging the need for the enactment
of the bill for the creation of a cen-
tral reserve association and so it is
a matter for merchants and manufac-
turers and their employees to worry
about most. "This is not merely a
bankers' question," said Mr. Forgan.
"Bankers can worry through panics;
and, indeed, the banks often make
more profits at such time than they
do at other times, for the simple rea-
son that they get the highest rates
the law will allow them for any mo-
ney they loan."

GUND PATRONS GET BEAUTIFUL PICTURE

A beautiful reproduction of the
painting, "A Fighting Chance," by
Philip Goodwin, is being sent out by
the Gund Brewing company to its
saloon trade. The picture which is
a copy of the original painting owned
by the company is a remarkable
depiction of wild life. It shows an
incident in the life of a prospector
in the Rocky mountains. Surprised
on the trail by a huge grizzly bear
who rises from behind a fallen tree
to dispute his right of way, the pros-
pector is seen reaching for his gun
which is slung from his saddle. The
eyes of the miner's horses show their
fright as they attempt to draw back
from the danger. The life of the
prospector depends on quick and
steady aim with his rifle. Will he win
or lose? A fighting chance is in-
deed a fitting name for the situation.
The colors and lines are true to na-
ture and one instinctively feels that
the situation depicted was not un-
common in the early history of the
west. The picture cannot fail to at-
tract attention wherever it is seen
and is a creditable advertisement for
the Gund company.

WILSON NOT POPULIST

NEW JERSEY GOVERNOR ASKS TO
HAVE NAME WITHDRAWN
FROM NEBRASKA
BALLOT

LINCOLN, Neb., April 5.—Govern-
or Woodrow Wilson of New Jersey
objects to the presence of his name
on Nebraska's primary ballot as a
populist candidate for the presiden-
cy. The following letter reached the
state department today:

"TRENTON, N. J., April 1, 1912.
—To the Secretary of State, Lincoln,
Neb.: Dear Sir—I am informed that
someone has filed my name on the
primary ticket as a candidate for
the populist party. It was done with-
out the authorization of those gen-
tlemen who are in charge of my in-
terest in your state. While I am
grateful for the honor thus confer-
red on me, I feel that I must do as
my friends wish, and so request you
to withdraw my name from the bal-
lot of the populist ticket.
"Cordially yours,
"WOODROW WILSON."

Secretary of State Waite is doubt-
ful if the Wilson withdrawal came in
time to keep the name off the pri-
mary in the ballot in all of the coun-
ties.

STRIKE BLOW AT TRUST-OWNED SHIPS

WASHINGTON, April 5.—A blow
at foreign shipping monopolies was
struck yesterday by Representative
Humphrey of Washington, by in-
troduction of a bill in the house to
prevent trust owned vessels from
entering American ports.

Under penalty of \$25,000 fine
for each offense, foreign vessels
whose owners have been civilly or
criminally convicted under the anti-
trust law are prohibited from Amer-
ican commerce, the bill provides.
Cancellation of mail contracts with
such marine interests is another
penalty.

PRINCELY COUPLE FIGHT

PRINCESS ZITA AND AUSTRIAN
ARCHDUKE ARE REPORTED
TO BE AT THE PARTING
OF THE WAYS

PARIS, April 5.—The Princess Zi-
ta and the Archduke Karl Franz, af-
ter Franz Ferdinand the heir to the
throne of Austro-Hungary, though
married only last October have al-
ready come to the parting of the
ways, says the "Cri de Paris."

The Princess is not yet 20. She
is a Bourbon from the ducal line of
Parma. She is vivacious, very Ital-
ian in temperament. Her husband is
stolid, German, calm; he is aged
25. Their marriage was said to be
of love and in no way political.

According to the paper mention-
ed the bride and groom quarreled
on their wedding journey and even,
it is said, fought. Upon their re-
turn, after a violent scene, the bride
left the conjugal roof and went back
to her home, telling her numerous
brothers and sisters what had hap-
pened.

The aged Emperor Franz-Joseph is
said to be much worried over the
affair and he, with the entire imper-
ial family to help him, is trying to
patch things up.

COMMISSION MAKES NEW APPOINTMENTS

MADISON, Wis., April 5. — The
following appointments have been
announced by the state civil service
commission: Florence Usher, Mad-
ison, copyholder, state printing board;

WATCH AMERICAN BOY SCOUT
MOVEMENT CAREFULLY AND
REPORT TO SCOUTS OF
NATIVE LANDS

Members of the diplomatic corps
in Washington are organizing boy
scout troops under the direction of
the local district council of the Boy
Scouts of America. The Russian em-
bassy has taken the lead in this work
and already an attaché of that em-
bassy has been working with E. S.
Martin, scout commissioner for
Washington in organizing a troop.
The diplomats representing the 20 or
25 different countries in which the
boy scout movement is established
are quite anxious to organize Ameri-
can troops of scouts. They want to
study the American methods of
scoutcraft and get an insight into
the progress of the movement in this
country so that they can report clear-
ly and intelligently to the boy scouts
of their respective countries what is
being done here. Furthermore, they
will introduce to the American scout-
craft many suggestions which are pe-
culiar to their own country and which
have been of great use there.

OVERDRESS FAULT OF HIGH SCHOOL

U. S. Bureau of Education Declares that Pupils Spend Too Much on Their Dress

"There is a tendency on the part of the older high school pupils to overdress and adopt the styles and fashions that make them seem more mature in nature and appearance. The younger pupils are quick to imitate the dress and manners of their older schoolmates. This leads them into indiscretions and robs them of an important part of childhood. The expense of overdressing falls heavily upon most families and tends to discourage many parents from keeping their children in school."

These assertions are made in a circular of information just issued for free distribution by the United States Bureau of Education, which deals with an educational experiment at Dayton, Ohio, whereby the school children are segregated in a special high school for their first year after graduation from grammar school. "In this school," says the circular of information, "there are no older pupils, and the simplicity of childhood is maintained in dress and manner for another year. The children are able to develop more naturally without the influence of older pupils." The Bureau of Education's circular of information was written by J. H. Painter, principal of the first-year high school at Dayton.

Milady's Toilet Table

By Mme. D'MILLE.

A simple home treatment that keeps the hair fine, clean, fluffy and glossy is dry shampooing once or twice a month with therox. To prepare the powder, put a cupful of cornmeal (or four ounces of powdered orris root) in a fruit jar and mix with it a small original package of therox. Sprinkle a little on the head and brush it out thoroughly, and it will take all dirt, dandruff and excess oil with it.

A luxurious everyday toilet necessity of the choicest materials can be made at home at little cost by simply dissolving an original package of mayatone in a half-pint witch hazel. Cover the face, neck and arms with this solution, and its purity, fineness and velvety softness will prove desirable and refreshing to the most sensitive skin. It beautifies without that "powdered" appearance—and "holds" as no powder does.

A splendid remedy for sores, skin eruptions, pimples, eczema and similar beauty destroyers is Mother's Salve. It heals cuts, burns and scalds without leaving a scar, and is recommended for obstinate sores. It is antiseptic as well as healing and tends to prevent blood poisoning.

Probably nothing is more humiliating to a woman than hairs on her face. However, these can be quickly removed by applying delatone paste. Mix enough powdered delatone with water to cover the hairs; leave on for two minutes, then wipe off, wash the skin, and the hairs will be gone.

ALLEGED BORGIA DENIES HER DEED

Mrs. Vermilya Declares that She Loved All the Boarders She Is Said to Have Slain

CHICAGO, April 5.—Hundreds of people crowded Judge Sullivan's court room yesterday to hear Mrs. Louise Vermilya make her denial on the witness stand of what have been termed by the state's attorney "the most dastardly and subtle murders of modern days."

There was a hush in the crowded court room as the woman in black was slowly carried in her invalid chair to the witness stand to resume her story. Her thick black veil was thrown back and showed her face, pale and haggard. With an air of confidence she settled in her chair and looking straight at the jury said in answer to a question from her lawyer:

"No, I did not kill Richard T. Smith; I did not kill Arthur Bissonette. I never killed anybody. I loved all those people whom I am charged with killing. Gladly would I have given my life for the lives of my husband and my children."

Before she could go further with this statement objections were sustained. The woman declared she knew nothing of poisons or how to administer them. She said she was engaged to marry Richard Smith. She described the funeral of Smith, after denying that he had eaten anything at her house, beyond some toast and tea that she made for him upon the orders of a physician.

"J. O. Smith, Richard's brother, asked me to attend the funeral at North Henderson, Ill.," said Mrs. Vermilya. "I went because he and his sister urged me. They thanked me repeatedly for what I had done for their brother. After the funeral, they asked me about Smith's diamond ring. I told them he had given it to me as a present. From that moment they grew suspicious of me and the next I heard from J. O. Smith, he had charged that there was something suspicious about his brother's death."

Mrs. Vermilya declared she was taken ill four days after the funeral and has been suffering ever since.

TOMAH, WIS.

H. B. Sowle was elected supervisor of first ward; Adolph Kress of the second and Henry Coome, supervisor of the third ward. E. A. Daherr was elected treasurer with a majority of 231. William Koopman was elected city clerk with a majority of 271. Theo. Schmidt was elected assessor with a majority of 210. E. Bartels and A. E. Hollister were elected to the office of justice of the peace. E. R. Johnson, James Rowan and Ed J. Hom were elected constables. La Follette sentiment was very strong. Taft receiving only forty votes of the entire city. Wilson was winner over Clark. Both towns of Tomah and La Grange voted \$1,000 for use on good roads. The town of Mayville voted "dry." The newly elected officers will take their respective offices next month.

The results of the municipal election held Tuesday were as follows:

W. B. Cassels, mayor, with a majority of 79.
Daniel Crowley, alderman, first ward, majority 57.

E. J. Kelley, alderman, second ward, majority 11.

James McClatchie, alderman, third ward, majority 2.

P. C. Peterson of Warrens shipped a carload to Chicago recently at \$1.05 a bushel.

The "Parents' Day," Manual Training and Domestic Science exhibits were well attended, about three hundred fathers and mothers inspecting the work of their and other children. The manual training and domestic science exhibits created most interest, these places being visited by about one hundred people going through these departments.

The debates held at the high school Tuesday afternoon between the Juniors and Seniors were both won by the Juniors. The first question was "Resolved that the army and navy be decreased so as to afford protection against inland disorders only."

Leslie Bonges, Mary Clay and Nila Williams, seniors, took the negative. Charles Hall, Rose Dreckmeir and Lavina Starkey, juniors, took the affirmative and were victorious. The second debate was "Resolved that women of this state should be given the right to vote." James Moran, Floyd McGinnis and Hugh Hilliker took the affirmative and Ruth Somers, Wilbur Hendricks and Stella Burger were on the negative and again the Juniors defeated the Seniors unanimously. This gives the Seniors 28 points towards the Rowlands cup and the Juniors 23 and the next debate which will take place next week will decide who shall win, or be tied for the cup. Both teams are working vigorously and a very good debate is promised. Mrs. W. R. McCaul, Mrs. W. W. Warren and Mr. Timothy Donovan were the judges.

Miss Jennie Caldwell has returned to Fountain City after attending the funeral of her brother in this city.

Mrs. C. A. Jay of Warrens is visiting at the home of Mr. and Mrs. H. W. Gillett on the west side.

Miss Cora Withers is visiting relatives in La Crosse at present.

Mr. Frank Knick was a recent caller in Norwalk.

Mr. Fred Cook of Chicago was a caller here Wednesday.

Mr. Raymond Sickles has accepted a position as temporary engineer at the Indian Industrial school here.

Miss Hazel Wells spent a few days in La Crosse recently.

"Sunkist"
Seedless Navel Oranges
In Premium-Bringing Wrappers

Juicy navel oranges with a charming tree-ripened flavor are now for sale at your dealer's. They are pleasingly economical and, in addition, the dining table can be furnished with beautiful silverware by saving the wrappers and sending them to us with a few stamps to partly pay charges, packing, etc. The genuine come in tissue wrappers marked "Sunkist." Your dealer will supply you at extremely reasonable prices.

Tree-Ripened—Picked With Gloves

Only the very finest oranges from the best California groves are packed under the name "Sunkist." Each orange is allowed to ripen on the tree, thus producing the wonderful "Sunkist" flavor. At maturity they are carefully picked and packed by gloved hands.

Seedless and Solid

Every "Sunkist" is perfect. Each is solid meat—seedless and juicy. Most delicious and healthful of fruits. Most wholesome fruit for children—better than sweets. Tones digestion and satisfies "sweet tooth."

Begin Saving Valuable Wrappers Today

Be sure to say "Sunkist"—not merely "oranges." You will know "Sunkist" by their handsome appearance and by the printed wrappers.

This Is Your Beautiful Orange Spoon

Save 12 "Sunkist" orange or lemon wrappers, or trademarks cut from wrappers, and send them to us, with 12c in stamps to help pay charges, packing, etc., and we will send you this genuine Rogers' silver orange spoon. For each additional spoon send 12 wrappers or trademarks and 12c in stamps. Not responsible for cash sent through the mails.

14 "Sunkist" Premiums

Restored Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

SAGE TEA WILL DARKEN THE HAIR

There is nothing new about the idea of using Sage for restoring the color of the hair. Our grandmothers kept their hair dark, glossy and abundant by the use of a simple "Sage Tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of Sage leaves, and applied it to their hair with wonderfully beneficial effect.

Nowadays we don't have to resort to the old-time tiresome method of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves; and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing Sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy.

This preparation gives youthful color and beauty to the hair, and is one of the best remedies you can use for dandruff, dry, feverish, itching scalp, and falling hair. Get a fifty cent bottle from your druggist today, and you will be surprised at the quick results. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

FRECKLES

New Drug That Quickly Removes These Homely Spots

There's no longer the slightest need of feeling ashamed of your freckles, as a new drug, othine—double strength has been discovered that positively removes these homely spots.

Simply get one ounce of othine—double strength, from O. T. Erhart, and apply a little of it at night, and in the morning you will see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.

: : Potted Politics : :

SANTE FE, N. M., April 4.—When word came from Washington that Albert B. Fall had drawn the senatorial term expiring next March, William H. Andrews immediately announced his candidacy as Fall's successor. It was the withdrawal of Andrews from the race last week that made possible the election of Fall and Catron.

JEFFERSON CITY, Mo., April 5.—A fight was threatened in the eighth congressional district convention here yesterday afternoon when the Roosevelt faction indicated that Governor Hadley and Jesse Toller, the leaders, would not be supported in their agreement reached

here with Taft lieutenants that the delegation to the national convention should be split between the two candidates.

NEW YORK, April 5.—Richard Croker, former Tammany hall chieftain, today asserted that Theodore Roosevelt has no chance in the contest for the republican nomination.

SPRINGFIELD, Ill., April 5.—The names of the three republican and two democratic candidates for president of the United States, which will appear on the ballots at the primary April 9, were certified to by the county clerks of the state by Secretary of State Rose today. The prohibition party failed to get enough names on their petitions.

MADISON, Wis., April 5.—That the introduction of a non-partisan

bill by the Milwaukee delegation will lengthen the special session of the legislature and possibly develop a bitter fight involving the republican, democratic and social democratic parties which may delay some of the important work included in the call of Governor McGovern, is feared here. The feature of the old bill and the proposed new bill provides that party designations on ballots in city elections shall be eliminated.

CHICAGO, April 5.—Characterizing the candidacy of Theodore Roosevelt for a "third term" as "another of the colonel's inconsistencies," John Maynard Harlan, son of the late justice of the supreme court and one of the best known lawyers in the west, today fired the first oratorical broadcast of the Taft forces against Roosevelt adherents in the Illinois

presidential primary campaign.

WASHINGTON, April 5.—"Barnes and his bunch in New York are no more for Taft than they are for any of you," said Senator Dixon, manager of the Roosevelt campaign, on his return from New York and Vermont. "Barnes is going into the Chicago convention with the votes he has with the intention of making the best possible trade for Barnes. He and the other bosses like Penrose, who are after uninstructed delegates, know that Taft cannot be elected, and when they get to Chicago they'll be looking for some man who can."

"The way the Taft crowd has spent money in Vermont and Michigan is something scandalous. The next thing to it is the way they lie."

WASHINGTON, April 5.—Advancing information that he intend-

ed to fire some shot in Colonel Roosevelt's direction was given by Senator Jones of Washington today. He said he expected shortly to speak on the expresident's new "recall of decisions," which he announced informally "were similar to those employed by Pontius Pilate some 1900 years ago."

ASHLAND, Ky., April 5.—W. D. Cochran, Taft manager in the Ninth district of Kentucky, boarded the Roosevelt train at Maysville today. He told Colonel Roosevelt he would get fair and honorable treatment in his part of the state. Roosevelt replied: "I am very glad. All I want is a square deal."

The popularity of puzzle pictures seems to be playing out, and there is evidence that the world is growing wiser in other respects.

PLATFORM BASIS OF REAL FIGHT

Believed by Many that the Convention at Chicago Will Fight Over the Platform

NEW YORK OPENING GUN

Rochester State Convention Tuesday Will See Opening of the Platform Struggle

NEW YORK, April 5.—That the real struggle in the republican national convention will be over the platform, and that already a combination between the south and east to curb the west is being considered today.

The opening gun in the fight will be fired at Rochester next Tuesday. Plans will be framed there, in connection with the republican state convention which will elect the four delegates at large to Chicago, to carry the fight against what the leaders characterize as "radical socialism" into the resolutions committee, and on to the floor of the convention, and to lineup state leaders from the east and south against the west.

Opposes Recall
For the first time in the history of the party in the state the spring convention will take on national importance. Nicholas Murray Butler, president of Columbia university and noted opponent of the recall, especially for judges, the initiative and the referendum, will be temporary chairman. Friends whom he has consulted regarding his speech in that capacity said today that it will be the keynote of the opponents of radicalism and that it will outline the position of the great mass of the conservative leaders of the east and south.

Against Socialism
Following conferences between members of the state committee today it was said the Rochester convention will probably be a two day affair and that provision will be made for a full and free discussion on the floor of policies and candidates. It was openly asserted that the platform to be adopted will "deplore the spread of socialism" within the party and will denounce specifically and bitterly nearly all of the doctrines which Colonel Roosevelt has recently appropriated.

Free Delegation Favored
Many of the leaders said today that they favored the sending of an uninstructed delegation to Chicago and providing for a conference of the delegates on the eve of the convention to decide on a course of action. "The platform and not the candidate will be the chief consideration," leaders said today. "But if the majority of the delegates at Rochester want to endorse a candidate this early, their wishes will be respected."

JOHNSON AGREES TO PAY UNCLE SAM

CHICAGO, April 5.—Admitting that he failed to sign articles with Uncle Sam, and that he has suffered a real solar plexus knockout, John Arthur Johnson has promised the federal officials that he will pay all bets and tomorrow will contribute \$9,600 to the coffers of Uncle Sam. Jack acknowledges that he surreptitiously introduced into this country one diamond necklace worth \$5,000 without declaring his intentions. Penalties, fines and duties bring the total bill of the government to \$9,600.

Kissing his hard earnings goodbye, Jack said: "I knew you had to sign articles with Uncle Sam, but I did not know the rules were so much harder on you when you resign than they are in the boxing game."

OFFICER INVENTS AEROPLANE GUN

WASHINGTON, April 5.—Experiments are being held at the Indian Head naval proving grounds, on the Potomac river, of the newly devised "aero gun" for use upon aeroplanes. Commander Cleland Davis, U. S. N., invented the gun, which is of 4 inch caliber. It is so designed that it can be fired from a delicately balanced aeroplane without displacement by the recoil. A dummy projectile, fired from the opposite direction from the bullet, counteracts the shock of the discharge.

NICHOLS ADMITS HE DID NOT MURDER

PORTSMOUTH, N. H., April 5.—Describing the manner in which he became possessed of the belief that he murdered Dr. Knabe, Seth Nichols today said: "I was distracted by the death of my wife and reading the papers from Indianapolis which contained the story of Dr. Knabe's death I conceived in some strange manner the fixed idea that I committed the crime. Not until this morning did I realize that it was only a 'child of my brain.'"

TAFT HAS NOT ANSWERED LODGE

WASHINGTON, April 5.—President Taft has not yet made "ready" his reply to the Lodge resolution, "requiring information as to the truth of the persistent reports that Japan has been seeking a naval base along the Pacific coast of Mexico. The executive had a long conference with Chairman Sulzer, of the house foreign affairs committee regarding the matter.

GOLD DUST

makes clean,
healthy homes

Gold Dust acts like magic on dirty floors, doors and woodwork. You do not have to bend until your poor back is nearly breaking in an effort to scour and scrub away the dirt. Add a heaping teaspoonful of Gold Dust to a pail of water and the Gold Dust Twins will do the rest.

Gold Dust makes floors and doors spotlessly white. It searches out dirt, germs and impurities from every crack and crevice.

Gold Dust makes home—"sweet" home. Save your strength by calling Gold Dust to your aid.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

"Let the GOLD DUST TWINS do your work"

ASSAILS MISS MERCY

MOST BITTER ATTACK IN HISTORY OF CHICAGO IS MADE BY ATTORNEY FOR UNIVERSITY

CHICAGO, April 5.—The most bitter arraignment delivered in the courts of Chicago, was the comment made in Judge Pomeroy's courtroom on the argument of Attorney Francis A. Walker, in defense of Dean Talbot and the University of Chicago in the \$100,000 slander suit against the dean by Esther Mercy. The lawyer's entire argument was an attack upon the woman who said she had been called "a woman of the streets" by the defendant when dismissed from the Midway school.

"The court has decided that it is the jury's duty to consider the facts in this disgusting case," said the attorney. "This woman has attempted by every means to secure notoriety at the expense of this university, at the expense of this court and she has gone even to the extent of making this trial a farce by attempting through her actions in the courtroom to influence you members of the jury. This case is simply an effort to blacken the great name of one of the world's grandest universities and to ruin the life work of a woman who has consecrated herself to the guidance and education of young women and men. Can you believe these charges of this defendant who has spent upwards of twenty years in the education of the young?"

PROHIS RIDICULE LOCAL OPTION PLAN

DELAWARE, O., April 5.—Local option and license were ridiculed as offering no adequate solution of the liquor problem in the keynote speech of Dr. Daniel A. Poling, of Columbus, when he opened the state convention of the prohibition party here yesterday afternoon. He urged "total abstinence for the individual and prohibition for the state and nation."

DANGERS OF FAT

How Fat Effects the Liver

Next to the heart, there is no organ of the body more susceptible to an abnormal increase of fatty tissue, than the liver. When the liver becomes too fat, its action is impeded, allowing the fat making foods to make more fat than is needed for normal symmetry. The liver, clogged with excess fat, becomes inactive, and, from disease, the nature of the organ undergoes a change. Constipation, headaches, biliousness and similar local disturbances of the system are not the least of the fat man or woman's troubles, for the rolls and layers of fat on all portions of the body increase, clogging other organs, paving the way to obesity. All this can be avoided, if the proper remedy is resorted to at once. Nothing ever discovered for the removal of fat is so effective as the famous Marmola Prescription. However, from the same high authority came Marmola Prescription Tablets, containing all the elements of this sure, harmless Prescription and offering a more convenient means for reducing to normal weight at the rate of 10 to 16 oz. a day, without dieting, exercise or resulting wrinkles and flabbiness. Marmola Prescription Tablets are sold by all druggists or the Marmola Co., 791 Farmer Bldg., Detroit, Mich., at 75c the case.

PRINCETON WINS
N. W. TANK MEET

CHICAGO, April 5.—With an
easy victory over Northwestern uni-
versity to their credit, Princeton
swimmers today prepared to meet
a crack tank team of the Illinois
athletic club tonight. The contest
will be the final work-out for the
intercollegiate championship
swim with the Illinois university to-
morrow. The Northwestern swim-
mers fell easy prey to the eastern-
ers by a score of 44 to 26. The
latter have not lost a collegiate
contest this season.

EDUCATION COSTS MORE THAN POLICE

Bureau of Education Ex-
pert Finds that the Small-
er the Town the More
Its Schools Cost

MINNEAPOLIS LEADS CLASS

Mill City Spends More than
Any Other City of 300,-
000 Inhabitants for
Its Schools

Compare the cost of a city's police
force with the cost of its school sys-
tem and you have one indication of
that municipality's interest in edu-
cation, according to Dr. Harlan Up-
degraff, Dr. Updegraff is specialist
in school administration of the United
States Bureau of Education, which
has just published for free distribu-
tion a monograph containing the re-
sults of his investigations.

In discussing his monograph yester-
day, Dr. Updegraff said that every
American city spends more money on
its schools than on its police. "But
the value of this comparison," he
said, "comes in finding how much
more the public schools get. It is
an interesting, and possibly a signifi-
cant fact, that the larger the pro-
portion of total municipal revenue
given to one of these branches of
city government, the smaller the pro-
portion received by the other. This
rule is practically invariable in all
the cities investigated. Again, it has
been found that the smaller the city
is, the larger is the proportion of its
income spent on schools.

26 Per Cent
"This investigation embraced 103
of the 184 American cities which the
census of 1910 showed to have a pop-
ulation of 30,000 or more. We divided
the list into four groups. In the
first group, we found that the gen-
eral practice was to spend about 26
per cent of the total revenues on the
public schools, or \$2.12 for every dol-
lar spent on the police force. Minne-
apolis made the best showing, giving
its schools 37 per cent of its entire
income, or 4 1/2 times as much as it
spent on its police.

Scranton Leads
"The second group of cities, which
includes 29 communities with a pop-
ulation of 100,000 to 200,000, gen-
erally speaking devoted a little more
than one-third of their incomes to
education, or three times as much as
they gave their police. Here Scranton
did the best by its schools, with
expenditures for them amounting to
practically half of all its income,
whereas its police force got only one-
sixth that amount.

"Going still farther to the third
group, comprising 42 cities having a
population of 50,000 to 100,000, we
found that they are spending about
26.5 per cent of all the receipts on
education, or three and two-fifths
times the police appropriations.

"Finally, 28 cities investigated,
which have a population of 30,000 to
50,000, lay out practically 38 per
cent of their money on schools. This
is four and one-third times as much
as the guardians of the peace re-
ceive. Here Topeka, Kans., and Jop-
lin, Mo., are tied for first place, each
with a showing of an even 53 per
cent.

JIM HILL'S DAUGHTER IS SERIOUSLY ILL

ST. PAUL, April 5.—Miss Rachael
Hill, daughter of James J. Hill, chair-
man of the board of directors of the
Great Northern railroad, is seriously
ill at her father's home here, with
typhoid fever. G. T. Slade, vice pres-
ident of the Northern Pacific road,
Mr. Hill's son-in-law, stricken with
typhoid several days ago, is still in
a serious condition. He is also at his
father-in-law's home. A special
train is waiting in New York to
bring J. J. Hill home if either pa-
tient's condition gets worse.

the purse is \$5,000. The trail is in
good condition, the weather per-
fect, and it is believed "Scotty"
Allen's record of 81 hours and 12
minutes will be lowered.

OBJECTS TO FREEDOM

REPRESENTATIVE REDFIELD
PREDICTS THAT PHILIP-
PINES WILL BE GOB-
BLED IF LOOSENEED

WASHINGTON, April 5.—Devel-
opments indicated that the democra-
tic leaders in the house will experi-
ence difficulty in making a party
measure of the bill to give the Philip-
pines absolute independence in
1921.

Representative Redfield, (New
York), declared that the moment the
United States relinquished control
of the islands they might be gobbled
up by Japan or some other foreign
power, eager to expand its orient pos-
sessions. "Japan has long waited for
an opportunity to grab the Philip-
pines," Redfield asserted. "If we
granted absolute independence to the
Filipinos, what assurances have we
that we would be able to protect
their possessions should the Mikado
decide to seize them?"

"The Philippines would also make
a prize for England or Germany.
Again we have no assurance that
the majority of the Filipinos want
absolute independence. There are
thousands of fierce Moros in the is-
lands who have declared they would
never submit to rule by the Filipinos
whom they deem an inferior race. The
minute our troops left the is-
lands the Moros would revolt against
the new government and it would be
very easy for some power to step
in under the guise of restoring or-
der and secure control."

BONDHOLDERS OF ROAD RE-
CEIVE REPORTS UPON WHICH
TO BASE THEIR NEW
PLANS

NEW YORK, April 5.—The com-
mittee of holders of bonds of the
Wabash railroad today received re-
ports upon which they will form a
plan for the reorganization of the
concern. One report, from J. C.
Stubbs, outlined the condition of the
physical property. Another from
Price, Waterhouse & Company, dis-
cussed the financial condition of the
company. In a statement the com-
mittee said: "The committee has now
on hand data which will enable it to
consider all the factors involved and
to proceed with the preparation of a
plan for permanent financial reorgani-
zation."

Bernard M. Baruch was made a
member of the committee to succeed
the late Edwin Hawley. Holders of
first refunding and extension mort-
gages bonds were represented.

LODGE QUESTION RAISES INTEREST

Resolution Asking Taft for Information About Magdalena Bay Creates a Furore

INTERVENTION BRINGS CLASH

Thought by Some if U. S. Tries to Straighten Mexican Tangle Japan Will Take a Hand

WASHINGTON, April 5.—Despite denials by both Japan and Mexico that the former has any intention of establishing a settlement on the shores of Magdalena bay, Senator Lodge's resolution calling on the president for all information on the subject has greatly interested diplomatic and legislative Washington.

It is generally accepted the resolutions mean that the senate intends that both of the nations shall realize that this country will never permit any such concession. Discussing the subject today most of the members of congress took the view that Japan cannot establish a naval base in this hemisphere. Representative Needham of California said: "There is absolutely no justification for any attempt of Japan to get a coaling station in North America. We have possessions in the orient, but we got them in time of war. If Japan tries to get a foothold over here in time of peace this government should look into it."

Japan May Join

"In the event of ultimate intervention in Mexico, it is possible that Japan might join with Mexico. I do not believe this is likely, but if the Japanese are really endeavoring to get Magdalena bay and are looking for an excuse to clash with the United States, we might find a big job on our hands if we attempted to straighten out the internal affairs of Mexico."

"The one amazing thing about our relations with the Japanese is their extreme cockiness. They have a number of laws and regulations which work a hardship upon the foreigner in Japan, but no one ever resented these. But whenever we take any steps to check the flood of Asiatic immigration Japan thinks her honor is assailed and that we look upon her people as an inferior race."

"Personally, I am convinced that we are not going to have any trouble with Japan unless she starts it. However, the reports of her activity in Mexico are so alarming that the Lodge resolution is perfectly justified."

Coast Neglected

Representative Humphrey (Rep., Wash.) declared he was in sympathy with the Lodge resolution, and that it was "almost criminal" the way the Pacific coast was being neglected in the way of "national protection."

"The coast is in an absolutely helpless condition," he said. "We have no battleships, cruisers or submarines and many of our posts are unfortified. The United States is constantly inviting trouble from the far east by its failure to protect the Pacific coast. There are two factions of extremists—those who laugh at the idea of trouble with Japan and those who constantly predict war. If there is no reason for a war scare, however, the best way to quiet the people is for the state department to reveal the real facts concerning Japan's alleged activities in Mexico."

Breaks the World's Swimming Record

BRETTING

When Frank Beaufort, the Australian swimmer, swam 250 meters in 2 hours and 30 minutes, it was thought that the record would hold for many years to come, but now a new champion jumps into the limelight in Bretting, who on February 28, in Berlin, swam 250 meters in 2 hours and 24 minutes, thus chopping 6 minutes from the best previous record. Bretting will be in the Olympic games and is looked upon as one of the strongest contenders.

COMPANIES MAKING EARLY SETTLEMENTS

MADISON, Wis., April 5.—Inquiries are coming to the insurance department from the local fire departments in regard to the dues paid by the insurance companies. The new law provides that these shall be paid out of the state treasury to the local city and village treasurers on May 1. The companies are now paying these to the commissioner of insurance and nearly all have been collected, the amount now on hand being \$123,515.64. There are some 330 companies paying these dues and there are only five or six yet to be heard from. The total collections by the insurance department for the past three months amount to \$762,556.59, exclusive of the fire department dues, which swell the total collected to \$886,072.23.

There are times when a good bluff is as effective as great riches.

KILLS LAST OF PANAMA PESTS

Slap: the last mosquito on the Panama canal zone has been killed by a man from Chicago. Dr. J. B. McFarrich, president of the board of education of Chicago, claims to have given the last mosquito on the canal zone his death blow. Dr. McFarrich was in the party of the Illinois Manufacturers' association which recently made a trip to the canal and upon his return he praised very highly the great work done by Colonel Gorgas as chief sanitary officer, in exterminating the mosquitoes that formerly made that section feared for malaria and yellow fever. "The Panama canal zone," he said, "is an ideal health resort now. I saw only one mosquito during my stay there and"—with an expressive gesture—"I killed that one."

PLAN SOCIAL FIGHT AT THE CAPITAL

WASHINGTON, April 5.—Social conquests in Washington during the season next winter are planned for former Vice President Levi P. Morton. He has announced plans for refurbishing his home in the fashionable Rhode Island avenue district at an expense of \$60,000.

A "swell front"—literally—will be put up by the former vice president. A solid marble front to the residence will replace the plebian bricks.

John Russell Pope, a New York architect, is in charge of the rehabilitation of the Morton residence, which will have a large ball room and conservatory.

Large investments in capital real estate are being made by Morton. He is the owner of the Shoreham hotel and other large structures.

REBELS FACE DEFEAT

EAGLE PASS, Tex., April 5.—Scattering bands of rebels which have been operating close to the border above Piedras Negras are hurrying to the relief of Gen. Orozco's army. It is reported here that the federal authorities at Torreon have been advised that the forces under Orozco and Campa are nearly surrounded by federals, and that an overwhelming defeat of the rebels is expected as the outcome of a battle which will be fought. Eight hundred railroad men joined the government forces at Torreon and the situation shows a big improvement from the government's standpoint according to advices here.

BRAKE TRUST PLEA FAILS

BUFFALO, N. Y., April 5.—The plea in abatement entered by seven individuals indicted in connection with the indictment against the New Department Manufacturing company and five other coaster brake corporations, may be dismissed by Federal Judge Hazel. The individuals now may have to stand trial with the corporations on charges of conspiracy to restrain trade.

Hod Martin: "A man who hasn't seen Kansas is no account."

VAN HISE WRITES NEW PUBLICATION

MADISON, Wis., April 5.—Regulation and control of trusts by administrative commissions, the encouragement of concentration to secure the advantages of large operations, and co-operation to limit the wastes of the competitive system are urged by President Charles R. Van Hise of the University of Wisconsin in a new book entitled "Concentration, Co-operation and Control: A Solution of the Trust Problem."

HAIR HEALTH

If You Have Scalp or Hair Trouble, Accept This Offer

When we promise your money back for the mere asking if Rexall "93" Hair Tonic does not do as we claim it will, you certainly have no reason for even hesitating to try it. We do not ask you to obligate yourself in any way.

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if it did not do all we claim. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

Therefore, when we assure you that Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured we know what we are talking about.

We honestly believe that Rexall "93" Hair Tonic will do more than any other human agency toward restoring hair growth and hair health. It is not greasy and will not gum the scalp or hair or cause permanent stain. It is as pleasant to use as pure cold water. It comes in two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at our store—The Rexall Store, O. T. Erhart.

ANTAGONIST LIVES; HE KILLS SELF

MAGNOLIA, Ill., April 4.—When his antagonist feigned death, Otto Hulleron, who fired two shots from a revolver at Axel Alstrom, cut his throat because he feared he was a murderer. Hulleron was buried yesterday. The trouble arose over differences at a saw mill where the two men were employed. When Hulleron shot Alstrom dropped to the floor, although he was not hit. Hulleron fled to an adjoining room and drew a razor across his throat.

FRANKLINS TALK ON INCOME TAX

Jury Is Unanimously in Favor of Defenders of the New Law

That the principle of the income tax is right and that it is a just measure was the argument advanced for the law at the Franklin club debate last evening, and the jury decided unanimously in favor of the negative of the question, "Resolved, that at the next session the Wisconsin legislature should repeal the income tax law."
Professor Phillip Elliott led the discussion for the victorious negative and he was assisted in upholding the income tax law by Senator Otto Bosshard and Professor R. H. Butler. They asserted that in passing the income tax law the legislature had adopted a measure which had a principle which was entirely right and just. According to the provisions of the measure, they said, those who have large incomes and who are able and should pay taxes will have to pay their share towards the maintenance of the government. Although the others will also have to pay their taxes, the amount which they will have to pay will be in proportion to what they are able to pay and in this way the taxes will be equalized.
The affirmative was sustained by Professor Harry Spence who was assisted by Paul W. Mahoney and W. E. Barber. They declared that under the provisions of the income tax law that the revenue derived from the taxes would not prove sufficient for maintaining the expenses of the government. For the reason that enough money would not be secured the income tax law should be repealed at the next session of the legislature, they maintained.
Otto Schlabach, Roy Ahlstrom and Harry Robinson were on the jury.

NOTED PUBLISHER DIES

DR. ISAAC K. FUNK, NOTED AUTHOR AND PUBLISHER, DIES AT HIS HOME TODAY

MONTCLAIR, N. J., April 5.—Dr. Isaac Funk, the noted author and publisher, died here yesterday following an attack of heart failure. He had been ill with acute indigestion for two weeks but it was believed that he was recovering.
Isaac Kaufman Funk, author, publisher and clergyman, was born in Clifton, Ohio, September 10, 1839 and graduated from Wittenberg college in 1860. He filled various pastorates in the English Lutheran church. In 1878 he entered into partnership with A. W. Wagnalls, the firm later becoming the publishing house of Funk & Wagnalls. He wrote several books on psychology which are now standard authorities.
ALL HIS GLORY OF THE PAST
Actor Who Has Once Lost Favor of the Fickle Public Seldom Able to Regain It.
He was gaunt and drawn, a striking contrast to the rather heavy face, the confident air, and the swagger, which had extended even to the buttons on his coat but a few years ago. At that time ranting melodrama was a popular art, the star an elaborately built piece of mechanism, and this man the star's chief support.
His fate was a common one, dramatically emphasized by his outward appearance. Like a dilapidated sign flapping in the wind, his threadbare "prop" frock coat told the tale of former glory, while the resignation that poured in a flood light of despair from his moist eyes attested that that glory would never be renewed.
Like the old profile engine which was wont to thrill the gallery with its factitious bombast, and which now rotted, forgotten in the storeroom, this poor human, whose art at its best had been but a "profile" one, was forgotten and wasting, waiting like the other to be swept out in the great mass of uselessness, his ephemeral mission ended, his purgatory, nature's storeroom, a waiting room of poverty and despair, lightened by a rapidly fading ray of memories—memories of a short-lived lime-light popularity.
Cure for Pneumonia.
Take six large onions, chop them fine and put in a pan over the fire; then add the same quantity of rye meal and vinegar, enough to make a thick paste. Stir thoroughly and let simmer for about ten minutes. Then put in a large cotton bag and apply to the chest as hot as can be borne. In ten minutes apply another. By reheating the poultices, continue for a few hours. The patient will be much improved. Three or four applications are sufficient.
Two Turkey-Raising States.
Texas raises more turkeys than any other state—perhaps because turkeys require plenty of room for range, and Texas surely can give them that. Little Rhode Island, however, is said to produce the largest number of big turkeys—some of them weighing 40 pounds, and worth 40 cents for every pound.
Awful Possibility.
"De only objection to lettin' de ladies vote," said Uncle Eben, "is dat dey's habile to require special hats foh election days, same as Easter."
Don't Go Together.
"I has noticed," said Uncle Eben, "dat a man very seldom has a swelled head and a big heart at one an' de same time."

INVITE LA CROSSE TO CONVENTION

Council May Name Delegate to Hygiene and Demography Congress, Washington

Mayor John Dengler is in receipt of a letter from Governor Francis E. McGovern inviting the city of La Crosse to participate in the fifteenth international congress on Hygiene and Demography. Mayor Dengler will probably place the question of sending a delegate to represent La Crosse before the city council at the next meeting. It will then be referred to the board of health for the opinion. The congress will be held in Washington during the latter part of the summer.
Following is the letter received by Mayor Dengler.
"Mayor of La Crosse,
"Sir:—
"In consequence of a joint resolution of the Congress of the United States, entitled 'A Joint Resolution authorizing the President of the United States to invite the states to participate in the fifteenth international congress on Hygiene and Demography,' a letter of the Department of State has been addressed to me, extending the President's invitation and requesting me to appoint a committee of five to co-operate with the committee on organization in preparing an exhibit of American work in public health and vital statistics; and saying that the invitation is meant to include any cities in Wisconsin which may desire to contribute a separate exhibition. Following are the names and addresses of those whom I have appointed in accordance with the foregoing joint resolution:
"Dr. C. A. Harper, Madison.
"Hon. J. D. Beck, Madison.
"Dr. T. L. Harrington, Milwaukee.
"Dr. Hugo C. Reich, Sheboygan.
"Mrs. Julia Kurtz, Milwaukee.
"I have now the pleasure of laying this invitation before your honor for such action as the important interests of your municipality may suggest. I have also to say that the committee appointed by me is instructed to co-operate, as far as their co-operation may be desired, with any person or committee which may be appointed by any of the municipalities of Wisconsin, for the general purpose expressed in the invitation. In order that you may be more fully informed, I am enclosing a copy of the Department of State's letter to me. Yours very truly,
"FRANCIS E. MCGOVERN,
"Governor."

Double His Assessment.

"Would you," inquires the Greenwood Journal, "give the deaf man a verdict, if you were on the jury, who is suing for damages because he alleges that he is paying for preaching he can't hear?"
Personally we'd be inclined to render a verdict after the fashion of the immortal Paddy Divver. As the story goes, a loyal henchman of the clan, named Danny, was arrested for an enthusiastic and successful assault upon an innocent third party. It was just before election, and Danny sent for his leader. The leader heard Danny's story and went to see Paddy Divver.
"Judge," he said, "I wish you'd be light on Danny. He's a good fellow, and can help us a lot in the election."
"All right!" said Paddy, "I'll give him thirty days!"
"But that will keep him in jail over the election!" the leader protested.
"H—," said Paddy, "I mean the plaintiff!"
Gag for Noisy Geese.
The geese which play an important role in a certain opera recently presented in Milan, Italy, have been so noisy of late during rehearsals, drowning the voices of the singers, that a veterinary surgeon was consulted the other day, and he overcame the difficulty by inserting in the bill of each goose a chloroformed plug, causing temporary paralysis of the vocal chords, just before the rising of the curtain.
Ages of the Earth.
A French Scientist informs us that the earth may be 700,000,000 years old, although other scientists have never dared to estimate the age of our planet at more than 100,000,000 years. We would become vitally interested in this matter if it were not for the fact that it would be just as hard as ever to stay in the earth, even if we were to establish proof of the correctness of the French scientist's estimate.
Old City Well Uncovered.
A well that probably supplied the early inhabitants of Sydney, N. S. W., with water has been found by workmen engaged in the demolition of premises in Oxford street. The well has a depth of 30 feet, and contained when opened about 25 feet of water. The bricks are hand made and dovetailed, no mortar being used in placing them in position. The top of the well is covered with some ironbark slabs.
Value of Good Books.
When I consider what some books have done for the world, and what they are doing, how they keep up our hope, awaken new courage and faith, soothe pain, give an ideal life to those whose hours are cold and hard, bind together distant ages and foreign lands, create new worlds of beauty, bring down truth from heaven, I give eternal blessings for this gift, and thank God for books.—James Freeman Clarke.

SENATOR CHARLES CURTISS OF KANSAS, PROUD OF HIS BEAUTIFUL DAUGHTERS

Upper left, Miss Leona Curtiss; upper right, Mrs. Charles Curtiss; below, Miss Blanche Curtiss.

Among the many interesting families in the nation's capital, the wife and daughters of Senator Charles Curtiss of Kansas, always receive a special attention. They are popular to an unusual degree, their popularity coming as a natural tribute to their grace and charm. The Misses Curtiss are also famed as among the most beautiful in Washington society.

Narrowly Escaped Death.

A London (Eng.) milk carrier, who was wheeling his barrow along the streets at an early hour, one recent morning, had a miraculous escape from death. A motor-car, which was far exceeding the speed limit, came suddenly upon him, hit him in the back, turned the barrow over and, catching him up, carried him on the axle under the bonnet for a distance of 700 yards. The man sustained broken ribs and severe cuts and bruises.

Uses of Vanity.

An excess of vanity brings ridicule upon its possessor, just as an utter lack of it inspires contempt in the beholder. Of the two, ridicule is the least harmful; moreover, the object of jibes and jests always possesses the power to modify and refine excessive vanity into wholesome, elevating pride.

Another Reason.

An amusing story is told of Edmund Kean, who, one night, played Othello with more than his usual intensity. An admirer who met him on the street next day, was loud in his congratulations: "I really thought you would choke Iago, Mr. Kean; you seemed so tremendously in earnest." "In earnest?" said the tragedian. "I should think so. Hang the fellow! He was trying to keep me out of the focus."

USE CASCARETSWhat glasses are to weak eyes, Cas-
carets are to weak bowels—a 10-
cent box will truly amaze youMost old people must give to the
bowels some regular help, else they
suffer from constipation. The condi-
tion is perfectly natural. It is just
as natural as it is for old people to
walk slowly. For age is never so
active as youth. The muscles are
less elastic. And the bowels are
muscles.So all old people need Cascarets.
One might as well refuse to aid weak
eyes with glasses as to neglect this
gentle aid to weak bowels. The
bowels must be kept active. This is
important at all ages, but never so
much as at fifty.Age is not a time for harsh phys-
ics. Youth may occasionally whip the
bowels into activity. But a lash can't
be used every day. What the bowels
of the old need is a gentle and nat-
ural tonic. One that can be con-
stantly used without harm. The only
such tonic is Cascarets and their
cost only 10 cents per box at any
drug store. They work while you
sleep.

SPOTLIGHTS

OLSON MAKES A HIT

The entertainment, "Ole Olson,"
a three act Swedish dialect comedy,
presented at the local opera house
last Saturday evening, attracted a
large number of people from here
and neighboring towns and a well
packed house greeted the cast of
skilled and accomplished actors. The
play was full of exciting climaxes
which kept the audience in a contin-
uous roar. Throughout the entertain-
ment there was not a disinterested
moment and the success of the play
might easily be read in the hearty
applause which followed each and
every act. Ole Olson and several of
the performers entertained the large
audience between acts with some of
the latest songs which was enjoyed
by all.This same company will again visit
Maiden Rock on February 2, with an-
other entirely new Swedish comedy
entitled "Swan Swanson." We be-
speak for them a hearty reception
on their return.The management of the opera
hall is to be congratulated upon se-
curing these higher grade entertain-
ments which usually pass the small-
er towns by and we hope a continu-
ance of the good work will prevail.

a state of high excitement over re-

the organization are planning to
flock here and insist on the right

armed citizens are patrolling the
county boundary and others are re-

disturbers from the city. A score
of automobiles guarded by vigilantes
took loads of Industrial Workers of
the World members to the county line
last night and turned them loose.
The industrialists were warned not to
return.One hundred members of the or-
ganization were taken from a freight
train at San Onofre, a small station,
early today, herded into a cattle cor-
ral, and sent north on another train.
The posse patrolling the county line
are determined to turn back the in-
vaders. The county jail is full of
prisoners.

TWO CLAIMANTS FOR MIDDLEWEIGHT TITLE

MIKE GIBBONS

FRANK KLAUS

Since the Klaus-McGoorty fight, the middleweight division is gradually clearing itself and many are loud in their acclaim of Klaus as the present title holder. One man who has taken decided exception to this is Mike Gibbons, the St. Paul phantom.

Gibbons wants it to be clearly understood that he is to be counted in the middleweight class until he is put out in the arena. Those who saw the Minnesota man in action back him up in this view, and say that

Klaus or anybody else will have a hard time in putting him out of business.

WOULDN'T TAKE HIS WORD

Health Bulletin Given Out From Pulpit Only Arouses Skepticism in One Mind.

"The new preacher in our town was progressive enough to enliven even that humdrum performance of reading the notices of the day," said the suburbanite. "After mulling over the services for the coming week, the latest of two approaching marriages and the purpose of the day's collection, he said in perfectly distinct tones:

"I am glad to announce that Mrs. Hollis was able to sit up a while last evening, that a very favorable report was telephoned in this morning from the sick room of Mr. Grant, and that the temperature of Mr. Williams has been reduced to 98."

"Then he preached a sermon, but nobody knew what about, for all the congregation was revolving in their minds the physical condition of our sick parishioners. Many, like myself, went away believing that the minister's innovation would be of inestimable value to sick folk, who are pestered to death by people inquiring how they are; of inestimable value, that is, unless too many of the congregation shall share the skepticism of the woman who walked down the aisle ahead of me. Said she:

"I don't believe that Sarah Hollis was able to sit up last night. I was here at noon and she couldn't lift a finger then. I'm going right up to see about it."

EXPRESSION IN MODERN HAND

Denotes Thoughtfulness to the Observer, as Well as Some of the New Virtues.

There is no doubt that the expression of the hand in higher civilized races has changed, in a hundred years, said an observant woman the other day, quite as much as that of the face. "The perfect hand of the painter," says Richard Pryce in his novel, "Christopher," "the Hand Beautiful of convention, lacked subtleties." Now these subtleties may be perceived any night at any dinner table where Superior Persons are gathered together. The modern hand is a thoughtful hand, and makes use of gestures which denote the new virtues of pity and altruism, as well as an extraordinary feeling for the arts, especially that of music. If you took an audience at one of the classical concerts and examined their hands, you would hardly find one of the old, blunt, square-fingered, brutal type among them. Sir Henry Irving had beautiful and essentially "modern hands," and he used them with extraordinary effect in his acting. How often one would look at his hands instead of his face in some great scene—so expressive were they of his emotions. In medieval times only saints and martyrs possessed the kind of a hand which you see nowadays belonging to a high school teacher or a celebrated physician. Yet Mr. Pryce's heroine believes her intellectual hands. She is an ardent coquette, and in spite of her superlative and modern emotions, contrives to treat the hero very shabbily. These modern hands, with all their subtleties, are therefore not to be trusted. Indeed, their very complexities are a snare to the unwary observer.

TRUST LOSES VERDICT

\$282,012.50 IS DAMAGE ASSESSED
CHEWING GUM TRUST BY
A NEW YORK
JURY

NEW YORK, April 5.—In a sealed verdict in the case of Robert L. Johnstone, a chicle broker of Montclair, N. J., against the "chewing gum trust," opened today, the jury decided Johnstone is entitled to half of the profits made by the trust and awarded him \$282,012.50.

Charles R. Flint, Wallace B. Flint and Frank Cordley were the defendants, and Johnstone declared they were to finance the deal whereby the chicle output was to be cornered, and he was to assemble the various chewing gum companies. He asserted he received nothing for his services, although it had been agreed he was to receive half the profits.

NEVER FIGHT WITH BURGLAR

Upset a Chair and Frighten Him Away
—That is the Advice of a City
Policeman.

"Don't ever 'hunt' a burglar. Make a noise and frighten him away. Upset a chair or slam a door.

"Almost all burglars carry revolvers of the finest kind. A 'pete man' or safe blower, the most dangerous kind of criminal, usually carries an automatic revolver, as it gives the quickest action.

"Every householder should have a weapon in the house, but he should never use it unless to save his life.

"It is the inexperienced man whose use of the revolver makes it dangerous.

"A professional or expert burglar will never shoot unless to avoid capture. A safe blower will shoot at a policeman or any intruder, as for them capture means a long term in prison."

Special Officer Edward Brophy, an expert, made these statements, says the Pittsburgh Post. It is only on the very rarest occasions that he can be induced to talk about himself, but it is a fact that he is a crack shot with a pistol. He has made a study of weapons, and has a collection of them at his home ranging from little "baby hammerless" revolvers to huge Winchester rifles, a shot from which will move a heavy safe. He has always been interested in guns, and has taken special pains to learn about the guns burglars and other criminals carry.

Probably a Robber's Hoard.

A woodcutter at Moisson, in the Forest of Compeigne, northern France, found a box recently, in the trunk of an old oak. Opening the box, he discovered \$700 in gold pieces. On examination the coins, which have been in the tree trunk for nearly a century, were found to be stained with human blood.

FIVE NOMINATED FOR VICE PRESIDENT

La Crosse has five candidates for the vice-presidency of the United State. They are Dr. W. A. Anderson, former mayor; Thompson, county register of deeds; William McLaughren, north side orator; Harry Palmer, former alderman; and Frank Winter, attorney. In looking over the election returns today, the canvassing board which is counting the votes of Tuesday's election, found all of these names mentioned as vice-presidential possibilities. There were two votes on the democratic ticket in the second ward for Dr. Anderson and two for Harry Palmer in the same ward. "Billy" McLaughren nearly carried the north side as an unsuccessful candidate. The vote for Andrew Thompson was cast in the Seventh ward and as he votes there himself, some of his friends in the court house are accusing him of nursing his own presidential boom. While none of the men have announced that they will take the nomination if it is given them and probably would not receive it if they did, it is somewhat of an honor because there are several million of men in this country who have not even been "mentioned" as candidates.

Idea Exploded Long Ago.

In the search for a cure for consumption a Maryland physician thinks he has found one in snake poison. His procedure is to sterilize it and use it as an injection, the poison immediately killing the bacilli, according to program.

Our old friend Colonel Macaroni, to whose memoirs we are indebted, wrote nearly a hundred years ago:

"Naples, like other places, has its 'old school' in medicine. According to the olden pharmacopoeia viper broth is recommended as most restorative and nutritious to debilitated and consumptive persons. Hence, every apothecary's shop is furnished with a large chest, containing some scores of living vipers, and, of course, there is such a trade as that of viper catchers.

"I need not inform my intelligent readers that the virtue of viper broth exists alone in the imaginations, or, rather, in the moldy writings, of the long since departed prescribers."

School Land Ship.

One of the features of their public school training which the boys of Berlin, Germany, enjoy most is the "land ship," on which young sailors go through a regular daily training. The Itis is the name of the land ship which has been built and which has a crew of 120 boys. The larger boys act as officers. When they are at work on the land ship the boys dress in mid-dy blouses and caps. There is gun practice on the land ship every day, and a naval drill, and all the usual work of a ship is done by the boys. They have the greatest fun in climbing the spars and hoisting the sails, and life on the Itis is so popular that there are always more applicants for the crew than there are places to be filled.

SUGAR BEETS TO FATTEN STEERS

Largest Range Steer Seen in Chicago Is Product of Sugar Beet Feeding in Place of Corn

CHICAGO, April 5.—With the arrival at the Chicago stock yards last week of the largest range-fattened steer ever received there, another of the many laurels long worn by King Corn without a successful rival has been snatched away by the humble sugar beet. Recently an investigation conducted in Iowa showed that the net profit to the farmer from the growing of beets was far in excess of the yield secured from the same land in corn. Now it appears that the tops and pulp of the tubers are superior to the great western staple as a food for livestock for the giant steer that tipped the stock yard's scales at a higher figure than any previously recorded there for an animal coming direct from the range was fattened on the by-products of sugar beets. His weight was over 2,500 pounds and he came from Montana, from the near vicinity of one of the best sugar factories recently established in that state. The tops of the beets and the pulp after the sugar had been extracted were thrown out to the steers grazing on the neighboring range and it was on this food that the latest prize steer waxed to hitherto unrivaled proportions. Not only was the size of this Montana steer of record-breaking proportions but on the basis of quality he commanded a fancy price. As a result of the discovery of the beef-making qualities of beets a new field of possibilities is opened up for this industry which bids fair to expand very rapidly unless the tariff readjustment at present being attempted prevents its natural development.

COMPTON WOULD AVOID LICENSE

MADISON, Wis., April 5.—The request of L. M. Compton, superintendent of the Tomah Indian school, for a state automobile license and number plate free of charge has been received by Secretary of State Frear. Because the machine is used in federal service it is contended that no fee should be charged in issuing the license.

The secretary of state has declined to issue the license until the customary \$5 fee has been received and has notified Supt. Compton to this effect.

In case the license is not issued, F. H. Abbot, assistant commissioner of Indian affairs at Washington, has instructed Supt. Compton to run the machine without a license. It is possible that the matter may be made a court issue.

AUSTIN DAM FULL

AUSTIN, Pa., April 5.—To relieve fears that Austin would again be engulfed in flood, a hole was cut today into the 24 foot timber dam situated above the city. The water is now escaping faster than the dam is filling, and it is felt that danger has been averted.

CHINA ADOPTS THE SINGLE TAX

Celestial Kingdom Follows the Tenets of Henry George in Planning to Raise Revenue

SHANGHAI, April 5.—Real political and economic progress for the new Chinese republic, was the program outlined by Dr. Sun Yat Sen, former provisional president, in an interview given the United Press. The teachings of the American political economist, Henry George, will form the basis for Sun's work of reform.

"I intend to devote my future to the promotion of the welfare of the Chinese people, as a people," said Dr. Sun. "The centuries of heavy and irregular taxation for the benefit of the Manchus have shown China the injustice of any other system of taxation. A single, reasonable tax on the land will supply all the funds necessary to put China among the first of the civilized nations in political and economic advancement."

"We will include the ownership by the national government of all natural monopolies. No private interest will be allowed to tax and exploit the people through control of any material or service which is a necessity to life and happiness. These reforms China is certain to adopt, and under them we will grow into an industrious, peace-loving, prosperous people."

LUMBERMEN WANT REPORT PUBLISHED

Lumber Manufacturers Demand that Government Report on the Trust Probe

NEW YORK, April 5.—The National Lumber Manufacturers' association today issued a demand that the department of commerce and labor make public the results of its investigation of the lumber trust.

Lengthy correspondence between the officers of the association, President Taft and Secretary of Commerce and Labor Nagel accompanied the demand, which was in the form of a statement asserting that the correspondence shows that the "lumber producers are not dodging investigation or publicity by demanding it." The Lumber Manufacturers' association in a letter to the president in December 1911 declared that the government report on "control of standing timber" published in February of that year, was not responsive to the resolutions of congress directing an investigation of the lumber trust. They asserted that the ownership of timber could have nothing to do with "combinations to restrain the sale or manufacture of lumber."

The partial report submitted by Commissioner of Corporations Herbert Knox Smith set forth that there exists a "remarkable concentration of ownership and timber lands, which would make easy a combination to control prices." Among the names appearing on the letter-head of the manufacturers' association is that of Edward Hines, the man who, it was alleged, "put Lorimer over."

Find No Trust

WASHINGTON, April 5.—Commissioner of Corporations Herbert Knox Smith today asserted in reply to the demand of the National Lumber Manufacturers' association that he make public the result of his investigations of the "lumber trust," that the report on "control of standing timber," recently published, "was responsive to the resolution of congress for an investigation and was complete."

The commissioner declared that the association's complaint was not well founded and pointed out that a concentration of ownership of standing timber on timber lands, which was revealed in his report, to a certain extent, did constitute a monopoly. He said, however, that no concentrated powers have been discovered as existing among the lumber manufacturers.

PRESIDENT CAN'T REMEMBER FREIGHT

SPOKANE, Wash., April 5.—President Howard Elliott of the Northern Pacific railway was kept waiting in the superior court here from 9:30 yesterday until 6 o'clock last night before being allowed to testify in a case about which he said he knew nothing. President Elliott was served with a subpoena last week while visiting Spokane.

Asked concerning the shipment of 20,000 cement sacks for the loss of which the railroad is being sued for \$1,700, Mr. Elliott said: "There are about 7,000,000 freight transactions a year and I do not think I recall this particular one."

Tobacco by the Yard.

On Saturday afternoons in the Port Antonio market, on the island of Jamaica, a dozen or more negroes may be seen selling "rope" tobacco by the yard. It is smoked by the natives, and derives its name from the fact that it is twisted and put up in coils like rope, 200 yards to the coil.

LONG CASE IS ENDED SUE SALOONKEEPERS

CASE IN WHICH \$5,000,000 CAPITAL OF TEXAS WAS INVOLVED IS SETTLED IN CHICAGO COURT

CHICAGO, April 5.—The remarkable bargain of the state of Texas with the Farwells of Chicago for a \$5,000,000 capitol building was brought to light again by a decision for the Farwells in the circuit court. This ends ten years of litigation and knocked out some charges of fraud made by one of the English stockholders of a \$5,000,000 company organized by the Farwells to buy the 3,000,000 acres of land in the Panhandle of Texas which Texas conveyed to them for the construction of the capitol building. It was back in the '80's that the bargain was made and carried out and the suit was the sequel to a blizzard in the Panhandle in which 30,000 head of cattle, valued at \$800,000 were lost by the Farwells syndicate. To provide a revenue to the land company which they financed in England and Scotland a contract was made by which the cattle syndicate paid the land company in cattle for grazing privileges. Their enormous loss was considered when the final settlement was made in 1907. The allowance and settlement brought out some bitter allegations of fraud which the decision declares were unjustified.

There are lots of things we should either forget to remember or remember to forget.

RELATIVES OF TAXICAB MURDERERS AND THEIR VICTIM SUE MEN WHO MADE THEM DRUNK

CHICAGO, April 5.—Relatives of the four taxicab murderers today joined with the family of Mrs. Hattie Kaufman, the woman they killed during an attempt to rob her husband, to bring a suit against three saloonkeepers and the owners of the buildings they occupy.

The suit is brought under the new dram shop law, holding saloonkeepers and owners of the property responsible in damages for loss of services of men who commit crime while under the influence of liquor sold them by the saloon men. Judge Tut-till today ordered that the suit be filed under the paupers' act.

The damages alleged aggregate \$175,000. Edmund Kaufman, husband, and Virginia and Julian Kaufman, children of the murdered woman, ask \$65,000 damages, while the families of Fred Boneham, George Rabenau, John Stacy and William R. Channel, the murderers, ask \$110,000.

NEW OFFICIALS WILL MEET SOON

MILWAUKEE, Wis., April 5.—A caucus of successful nonpartisan candidates for city offices will be held Saturday night to discuss plans of organization and carrying out the platform pledges. This was decided Thursday afternoon. The caucus will be in a place to be decided upon later.

Probably the most important action to come up for discussion will be the organization of the common council. The council will be called upon to elect a president, and city clerk on inaugural day, Tuesday, April 16.

INTEREST SHOWN IN SPECIAL MEETINGS

Interest continues to manifest itself in the special meetings at the First M. E. church, the largest crowd of the week having attended the services last night, at which the pastor, Rev. Louis Magin, spoke on "The Trial of Christ Before Herod." Miss Edna Darling sang at last night's meeting.

Tonight Mr. Magin will take for his subject "The Trial of Christ Before Pilate," and the Misses Eva Gayman and Agnes Schaller will furnish the special music. The sacrament of the Lord's Supper will be observed.

At 7 o'clock on Easter morning there will be an early service conducted by the Epworth league. Miss Dinsdale, of the Y. W. C. A., is to lead the meeting.

Strong Tastes and Palates.
Fifteenth century Englishmen seldom used either milk or butter. They used great quantities of spices, however, in their food, and, apparently, did not care for the more delicate flavors that suit modern palates. It is pointed out by a writer that storage eggs and "renovated" butter would have had a ready market with them.

MAY NOT DISCUSS NONPARTISAN BILL

MADISON, Wis., April 5.—Letters addressed to Dr. Charles McCarthy of the state reference library, indicating that a non-partisan bill may be introduced at the special session of the legislature by the Milwaukee delegation, has created much speculation about the capitol as to whether it will be possible to bring in such a bill under the provisions of the call issued by Governor McGovern. There is a wide difference of opinion on this subject. Those who are anxious to keep the session as short as possible are hoping that such a measure will not be brought in because it is generally realized that it will stir up a hot fight and prolong the session.

Ancient Vaults Exposed.
During heavy rains in Kildare county, Ireland, a portion of the walls of historic Kildare abbey, Castleknock, became undermined and fell, when it was discovered that underneath were vaults in which were skulls and human remains. It is calculated that these remains have been there for the last eight centuries, since the time the abbey was a monastery.

VITAL STATISTICS SHOW BIG GAIN

A decided gain in population for the months of January and February together with the hope of a yet larger gain to come was registered in the office of Register of Deeds Andrew Thompson today. The gain was in the form of the vital statistics for those two months. According to the report there were 112 births, 79 deaths and 43 marriages.

Child's Timidity Averted Tragedy.
A Tallangatta (Victoria) woman, after undressing her child in the kitchen one evening recently, told the little girl to run upstairs to bed, relates an Australian exchange. The child whimpered and asked not to be sent upstairs without a light. The mother after scolding the child for her foolish timidity, got a light and accompanied her upstairs, when she was horrified to find a large black snake curled up on the pillow.

Concentrated Wisdom.
"Will your boy go to college?" "I don't believe he'll need to," replied Mr. Bliggins. "If he ever learns the answers to all the questions he asks, he will know more than the professors."

CAPTURED HERE WANTS PARDON

Jos. Remington, North Dakota Murderer Caught Here by Byrne, Asks Release

A dispatch from Fargo, N. D., telling of petitions that are being circulated asking the state board of pardons to rescind its action in commuting the sentence of Joseph Remington, who was sentenced for life about twenty years ago for the murder of James Flett, an elevator agent at Arthur N. D., recalls to the minds of some of the older residents of this city a chapter in Remington's career which was enacted in La Crosse.

At the time of the Flett murder, the murderer escaped and for several weeks the police of the entire country were on the lookout for the fleeing desperado. A man that had been hanging around La Crosse for a couple of weeks after the murder, finally came under suspicion of Chief Hugh Byrne. He was located in the Park hotel, which is now the Hotel La Crosse. Chief Byrne and his brother Al, and "Bill" Lyman went to the hotel to make the arrest.

Remington barricaded himself in one of the rooms of the hotel and dared the police to come in. He was heavily armed and it was with the full expectation of a desperate battle that the police kicked in the door and rushed at the murderer. He was overcome before he could fire a shot. The sheriff from Fargo came as soon as word was telegraphed that the murderer was caught. He took him back to Fargo on the next train.

QUICK WIT SAVED SOLDIER

Ready Answer Pleased Napoleon and Disarmed Indignation of Man Whose Name He Assumed.

In the French campaign in Italy, in which Napoleon I. first began to win the laurels which subsequently so abundantly crowned his career, a young Italian cavalry officer was taken prisoner. Having serious doubts about his safety, it occurred to him to pretend he was a great personage. So he promised rewards to his captors if they would insure his good treatment, adding confidentially that he was the duke of Modena. He was exceedingly well cared for, and early next morning was called before Napoleon, who was somewhat puzzled at finding two dukes of Modena among his prisoners, for the real duke was also a prisoner. The real duke angrily asked his counterpart by what authority he had assumed the title of duke of Modena. The young officer answered:

"Your grace, the peril of my situation yesterday was such that had I known a more illustrious title I would not have assumed yours."

The reply so pleased both the duke and General Napoleon that he was forgiven his deceit.

NEVER WILL BEAR REPETITION

Business Man Has Found That He Cannot Repeat Verbal Castigation Over Phone.

When the telephone bell rang the senior partner said to the junior partner:

"If that is that man Bailey, just you tell him what you think of him, even if you lay yourself liable to a fine for violent language."

The junior partner relieved himself of a few abusive epithets, but presently, after a brief pause, he expressed the same sentiments couched in much milder terms. Said the junior partner:

"There you go, crawling again. Why can't you stick to what you said in the first place?"

The junior partner dropped the receiver.

"Supposing you come and say it yourself," he said.

The senior partner did so, but after a little he, too, repeated his harangue with all the backbone left out.

"It's no use," he said. "You can't curse a man twice over the 'phone who answers your first outburst with I beg your pardon. I didn't quite catch that. Say it again, please." That is Bailey's way. You try to say it again, but the second time it sounds pretty rank even in your own ears and your temper of rage moderates into a tranquil breeze."

Value of Good Manners.

The woman who amounts to anything these days must have good manners. There are exceptions, but the woman who would make friends for herself or business for her firm will have a lot easier time and be more successful if she has acquired personal charm. An unfortunate manner neutralizes the good a woman does. The capable woman need not grow slack in her work because she leads, not drives; because she is soft of voice, suave of tongue, kindly of heart, and gracious to all. The reason most of the women are otherwise than suave is that the turmoil of life gets the upper hand. They let their nerves go and good breeding follows.

Careless.

At the mixed court recently a charge of arson was preferred against a shopkeeper whose premises are situated in Woosung road. After evidence had been adduced the accused was discharged, says the North China Daily News. His assistant, who was also before the court, received six weeks' imprisonment for carelessness in connection with the outbreak.

EL PASO COP IS RELEASED TODAY

Powell Roberts Is Turned Loose by Orozco at Demand of U. S.; High Men Alleged Traitors

EL PASO, April 5.—Powell Roberts, former El Paso policeman, whose arrest in Juarez and transfer to Chihuahua by the rebels, threatened international complications, has been released and is again in El Paso. Roberts was charged with being a Madero agent and was inveigled into Juarez six days ago and thrown into prison by the rebels.

After Sheriff Edwards and Mayor Kelly of El Paso, and United States Consul Edwards of Juarez had vainly demanded Roberts' release, protests were telegraphed by these officials to Governor Colquitt of Texas and the state department at Washington. Yesterday the state department ordered Consul Edwards to serve notice on General Orozco, commanding the rebels, that, unless he released Roberts immediately and furnished him a safe conduct to America, asserted he (Orozco) would have American regular troops to deal with. This ultimatum was sufficient for the rebel leader and he is believed to have been personally responsible for Roberts' release.

MEXICO CITY, April 5.—A sensation was sprung in Mexico City today when it was learned that Alberto Garcia Grandos, former secretary of the interior in the Madero cabinet, Jorge Vera Estanol, former minister of education, and Francisco Vasquez Gomez, brother of Emilio Gomez, one of the revolutionary leaders, had been charged with plotting to aid in the overthrow of President Madero and extending aid to Gen Zapata.

Exigencies of Art.

When Richard Mansfield was rehearsing the minut scene in Beau Brummel, the end of the music left him with one foot suspended in mid-air. Poised on the other foot, the actor burst into explosive anger, demanding in no uncertain tone of voice: "Give me a chord to put my foot down on!" The musicians jumped to their instruments, and, to a grand blare, Mr. Mansfield planted his foot on the stage.

Monkeys Stormed Gibraltar.

A modern Battle of Gibraltar took place in the old Moorish castle, used as a civil prison, between the monkeys that infest the Rock and the prison warders. One monkey nearly choked Senior Warden Cheehon to death and the simians finally drove their human foes into the prison. The monkeys have been considered almost tame. They are Barbary apes and are the only monkeys in Europe not in captivity.

Unhurt by Long Fall.

A fall from a second-story window of her house in Philadelphia did little more than jar an aged lady the other day. When members of the family reached her side they found that she had sustained only a few bruises. A doctor said no bones were broken, and that she would be about again in a day or so. She was leaning from the bathroom window when she lost her balance and fell to the yard.

WOULD RULE 10 YEARS

YUAN SHI KAI WANTS TO BE PRESIDENT A DECADE; IS BOSS OF CHINESE CONVENTION

PEKIN, April 5.—If Yuan Shi Kai China's first president, has his way he and his successors will hold office for ten year terms. The length of the presidency was originally proposed at seven years, but Yuan believes that the first president should be given at least ten years to get China well started on the republican road to progress. In the electoral assembly, Yuan would give the larger provinces eight, the medium six, and the smaller four votes. Indications are that the president will be the biggest individual factor in the national convention that will settle all these points.

Unable to Count Beyond Four.

A close observer has definitely established the fact that magpies and rooks cannot count further than four. A rook never returns to its nest until it is quite satisfied that there is no danger near. When four hunters or less departed in succession from a near-by log cabin, the rook would return to its nest after the last had gone out of sight. But whenever there were more the bird lost count and returned to its nest even while some were still in the hut.

No Pleasure.

A barrister, having wearied the court by a tedious plea, was interrupted by adjournment, and said, "I shall have the pleasure of addressing the court, then, on Friday." Very quickly came this response from the chief justice: "The court will hear you on Friday, but pleasure was out of the question long ago."—The Green Bag.

Grandfather Holds the Record.

There has been much progress, of course, but still we doubt if the young man who licks up the ground with a six-cylinder snorter thinks any more of himself than did his sturdy grandfather who could make four yokes of oxen perform in front of a big load of freight out of old Jefferson.—Galveston News.

No man ever does as much today as he thinks he is going to do tomorrow.

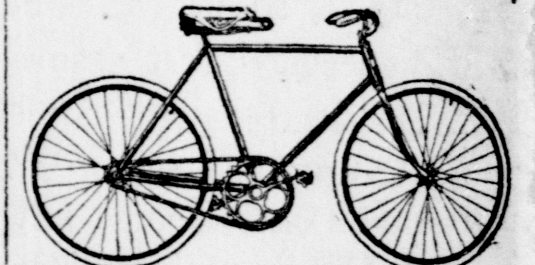

"POLICY GAME" CASE POSTPONED

ST. PAUL, April 5.—A further continuance until Saturday was ordered in police court in the case of the four alleged "policy game" men rounded up by the police. The continuance was asked by City Prosecutor Burns, who said that after talking to Corporation Attorney O'Neill and Acting Chief of Police Catlin, it is a question whether complaints will be filed.

Youthful Juror Summoned.

The most youthful juror ever summoned in an Irish court is a little six-year-old lad who, the other morning attended the recorder's court in Belfast, with his mother, for the purpose of answering his name, and asking to be excused from serving in such an onerous capacity.

Power to Burn

Buick

None Better

A Scarcity of Good Cars

Good cars this year are going to be scarce, that is, there won't be enough to go around; the reputation of the BUICK for POWER, SPEED, and ENDURANCE has gone broadcast, and there are none its equal; this year in addition to these leading features, it has embodied style, finish and up-to-date equipment. This tells the story why BUICKS are brought to the Northwest in four solid trainloads of fifty car loads each, the greatest shipment of automobiles ever known in the history of the business; this is the January and February allotment of the PENCE AUTOMOBILE CO. only, their order calls for 100 car loads per month after this date. Is there another automobile built that any man would have the nerve to order in such quantities and put his good money into? It signifies only one meaning, THE MOST POPULAR CAR, and a ready seller in all localities. You may pay more money for a car but you can't buy anything better at any price. This machine is backed in the Northwest by the largest wholesale and retail automobile house in the world. This also indicates SERVICE. You are not kept waiting for your machine or repair parts, twenty minute delivery is their schedule.

Monarch's Fine Library.
The library of Philip the Good of Burgundy, in the fifteenth century, surpassed all other European book collections of the time. It contained nearly 10,000 volumes, all richly illuminated on vellum, with bindings of lamask satin and velvet incrustured by jewels, with clasps of gold and gems. Bruges, where the ducal court was held, was filled with literary craftsmen, and certain of their splendid productions are still to be seen in the Belgian royal library.

Depressing, indeed.
"Health is the real woman problem," said a physician, recently. "I haven't a woman patient today, a chronic patient, I mean, who couldn't have escaped me—escaped me forever, or at least until the very last call, if she had been trained right physically from her childhood up. What I mean is that everything that is the matter with my patients is something superimposed by wrong ways of living and thinking. It's depressing, isn't it, to consider the waste?"

Intelligent Ostrich.
An ostrich which recently passed away at a private zoo in Bedfordshire was found to have eaten seven pounds of stones and a bicycle puncture outfit. It is thought, says London Punch, that the intelligent creature had tried to cure an internal cut caused by the sharp edge of the stones.

Demure, but Determined.
A bride looks so modest and demure at a wedding that it is hard to suspect her of having bossed the affair with an iron hand.—*Atchison Globe.*

AN EASTER OUTBREAK.

DRAINAGE MEET ON APRIL TENTH

10,000 Delegates Expected to Attend the National Drainage Congress at New Orleans

WOULD PREVENT FLOODS

Demonstrations to Be Given as to Methods of Flood Prevention and Reclamation

NEW ORLEANS, La., April 5.—The National Drainage congress, which will assemble in New Orleans April 10 for a four day session, will take up the questions of drainage of wet and overflow lands, river regulation and flood prevention, the development of inland waterway navigation and channel improvement, the utilization of levees for the construction of good roads, increased food protection and decreased cost of living, the creation of new farms and new markets.

The New Orleans Board of Control of The National Drainage Congress has planned to draw 10,000 delegates to New Orleans for this congress in order that sufficient nation-wide force may be generated to influence the federal congress to prompt action in enacting legislation that will pave the way for the prevention of floods and the drainage of the 75,000,000 acres of wet and overflow lands in the country.

The call for the congress is going to 50,000 governors, mayors, civic and commercial organizations, congressmen and senators and others.

At New Orleans the delegates will be given a practical demonstration of the ease with which modern machinery can dig navigable drainage canals and open up waste but highly fertile lands to the plow and the homeseeker. New Orleans itself has been reclaimed by ditches, drainage canals and electric pumps, and modern sky scrapers now stand where alligators and crawfish once held forth. On the outskirts of New Orleans there is now an 8,000 acre reclaimed tract which is being planted in a variety of crops to serve as an illustration of what the farmer can do with artificially drained alluvial lands. The delegates to the National Drainage Congress will spend half a day on these lands.

GERMAN RULES OF TRADE LAW

Witness Slams House Ways and Means Committee by Reciting German Ten Commandments

WASHINGTON, April 5.—Contrasting trade sentiment in the United States and Germany, John F. Queeny of St. Louis, a witness before the senate finance committee, took a dig at the house ways and means committee which drafted a tariff schedule threatening manufacturers claimed, great damage to the chemical industry in this country. "The ways and means committee," said Queeny, "has certainly shown very little loyalty to products of American manufacture."

"How differently the Germans feel toward their own product is well illustrated in ten commandments given to every employee and posted in every German business house the world over."

These are the ten commandments:

1. In all expenses keep in mind the interests of your own country.
2. Never forget when you buy a foreign article that our own country is thus made poorer.
3. Your money should profit no one but Germans.
4. Never profane German factories by using foreign machinery.
5. Never allow foreign eatables to be served at your table.
6. Write on German paper, with a German pen and German ink, and use German blotting paper.
7. German flour, German fruit and German beer alone can give your body true German energy.
8. If you do not like German malt coffee, drink coffee from German colonies.
9. Use only German clothes for your dress, and German hats for your head.
10. Let not foreign flattery distract you from these precepts; and be firmly convinced, whatever others say, that German products are the only ones worthy of citizens of the German Fatherland.

MANY CHURCHES OBSERVE DAY

Good Friday will be observed in the majority of La Crosse churches. Special services will be held and there will be elaborate ritual exercises by Catholic and Episcopal congregations.

Good Friday has been observed in the Christian church for nearly 2,000 years, as the anniversary of the date on which Jesus died on the cross.

The Catholic church celebrates the Saturday following Good Friday, and the day is known as Holy Saturday. Special fires are built in the vestibule of the church and carried into the sanctuary. The twelve prophecies are then read.

It's all right for a man to be cool in the hour of danger—if the coolness isn't all in his feet.

DOERFLINGERS

Youngster Brave Under Operation.

A remarkable exhibition of nerve in a young child was seen the other day in a Spokane, Wash., hospital, when a 6-year-old boy endured his third operation in one week, without an anaesthetic. The operation consisted of the grafting of a piece of skin two inches square on his shoulder, to cover an open wound, due to an accident some time ago, when the lad, while coasting, was caught under a street car.

Love and Friendship.
"Love was created so that man might understand woman; friendship, so that man might understand man."
—From Lilyan Shaffner's "Love and Friendship."

World's Finest Natural Bridge.

Only 25 white men, it is said, have as yet beheld the most remarkable natural bridge in the world—the Rainbow Bridge of southern Utah—compared with which the famous natural bridge of Virginia is almost insignificant. The Rainbow bridge is 309 feet high and has a span of 278 feet. The Virginia bridge has a span of only 45 feet and is 200 feet high. The Rainbow bridge arch exceeds the length of the longest masonry arch in the world by 65 feet.

Modest Man.
Sometimes, but not often, a man loses the desire for tobacco and devotes the rest of his life to bragging about his will power.—*Atchison Globe*

Met Death in Strange Fashion.

A curious fatal accident occurred the other day in northern France, at Douai. An engineer was trying a new motor on the biplane in the shed belonging to M. Moineaux, the aviator. His muffler caught in the propeller and wound around the shaft, dragging the unfortunate man within reach of the blades. He was scalped and his skull fractured.

Domestic Repartee.
"You will remember," said she haughtily, "that you proposed to me four times before I consented to marry you. You wouldn't take no for an answer." "I remember," he replied sadly. "It seems to me that every time you have changed your mind I've got the worst of it."
